VOLUME II
July–December, 1950
CIRCULATION
The Journal of the American Heart Association

CONTENTS
No. 1

Foreword................................................... Samuel A. Levine 3
Intracardiac and Intravascular Potentials Resulting from Electrical Activity of the Normal Human Heart
Charles E. Kossmann, Adolph R. Berger, Bertha Rader, Joseph Brumlík, Stanley A. Briller and John H. Donnelly
Peri-Infarction Block; Electrocardiographic Abnormality Occasionally Resembling Bundle Branch Block and Local Ventricular Block of Other Types
Safety R. First, Robert H. Bayley and D. R. Bedford
Excitation of Human Auricular Muscle and the Significance of the Intrinsicsoid Deflection of the Auricular Electrocardiogram
Hans H. Hecht and Lowell A. Woodbury
Studies in Intracardiac Electrography in Man. IV. The Potential Variations in the Coronary Venous System ............ Harold D. Levine and Walter T. Goodale
QRS-T Patterns in Multiple Precordial Leads That May Be Mistaken for Myocardial Infarction. III. Bundle Branch Block .................... Gordon B. Myers
IV. Alterations in Blood Potassium; Myocardial Ischemia; Subepicardial Myocarditis; Distortion Associated with Arrhythmias ................ Gordon B. Myers
Clinical Electrocardiography—Its Present Position and Possible Potentialities
Louis N. Katz
Standardizing Factors in Electrocardiography
James A. Cronvich, John P. Conway and George E. Burch
The Validity of the Equilateral Tetrahedron as a Spatial Reference System
J. A. Abildskov, G. E. Burch and J. A. Cronvich
An Approximate Derivation for Stereoscopic Vectorcardiograms with the Equilateral Tetrahedron ........ J. A. Cronvich, J. A. Abildskov, C. E. Jackson and G. E. Burch
Comparison of Heart Vectors Calculated with Different Systems of Leads
Richard McFee
Chronic Pericarditis with Effusion.......... Paul S. Barker and Franklin D. Johnston
Abstracts................................................................ 139
Book Reviews......................................................... 154
American Heart Association........................................ 159
CONTENTS OF VOLUME II

No. 2

Blood Lipids and Human Atherosclerosis
John W. Gofman, Hardin B. Jones, Frank T. Lindgren, Thomas P. Lyon, Harold A. Elliott and Beverly Strisower 161

Impending Hemorrhagic Shock and the Course of Events following Administration of Dibenamine
Harold C. Wiggers, Harold Goldberg, Frank Roemhild and Raymond C. Ingraham 179

Changes in the Ballistocardiogram after Exercise in Normal and Abnormal Subjects
Donald H. Makinson 186

The Interrelationships of Serum Cholesterol, Cholesterol Esters and Phospholipids in Health and in Coronary Artery Disease
Menard M. Gertler, Stanley Marion Garn and Jacob Lerman 205

The Effects of Intravenous Aminophylline upon the Coronary Blood-Oxygen Exchange
Elwood L. Foltz, Alan Rubin, William A. Steiger and Peter C. Gazes 215

Blood Vessels of the Skin in Chronic Venous Insufficiency
Myron H. Kulwin and Edgar A. Hines, Jr. 225

Effect of Potassium and of Desoxycorticosterone Acetate in Acute Heart Injury in the Rat
Charles G. Campbell and Sydney M. Friedman 230

Electrical Effects of Stimulating the Endocardial Surface of the Right Ventricle of the Dog
Albert M. Attyah 237

Arrhythmias during Intracardiac Catheterization
J. Michel, A. D. Johnson, W. C. Bridges, J. H. Lehmann, F. Gray, L. Field and D. M. Green 240

Ventricular Tachycardia during Cardiac Catheterization of Patient with Wolff-Parkinson-White Syndrome. Report of a Case Showing Effects of Atropine Sulfate
Robert A. Bruce, Paul N. G. Yu, Frank W. Lovejoy, Jr., Marion E. McDowell and Raymond Pearson 245

Electrokymographic Studies of the Normal Cardiac Cycle
Henry Mednick, John B. Schwedel and Philip Samet 250

Abdominal Aortic Aneurysm: A Study of One Hundred and Two Cases
J. Earl Estes, Jr. 258

Sodium Gentisate in the Treatment of Acute Rheumatic Fever
Louis E. Schaefer, Ira A. Rashkoff and Raymond S. Megibow 265

Studies on Blood Coagulation and the Effect of Digitalis
George C. Sutton 271

The Use of Digitalis in Spite of the Presence of Ventricular Tachycardia
J. S. Gilson and F. R. Schemm 278

Liver Function Tests in Chronic Congestive Heart Failure
Leonard Felder, Alvin Mund and Julius G. Parker 286

Pericardial Effusion Mistaken for Cardiac Enlargement in Severe Anemia. Report of Two Cases
Louis A. Soloff and C. T. Bello 298

Lodging of an Embolus in a Patent Foramen Ovale
Fabian J. Robinson 304

Abstracts 306

American Heart Association 320

No. 3

The Electrical Conductivity of Living Tissues as it Pertains to Electrocardiography.
I. A General Review of the Problem of Homogeneity versus Nonhomogeneity, an
CONTENTS OF VOLUME II

Outline of the Technical Aspects of Tissue Resistivity Measurements, and a Critical and Experimental Analysis of Certain Pertinent Experiments
  J. Malvern Benjamin, Jr., Herman Schwan, Calvin F. Kay and Joseph H. Hafkenschiel 321

Effect of Khellin on Coronary Artery Insufficiency as Evaluated by Electrocardiographic Tests. Maurice M. Best and Walter S. Coe 344

Some Characteristics of Certain Reflexes Which Modify the Circulation in Man
  Lysle H. Peterson 351

The Relationship between Prothrombin Time and Bleeding in the Clinical Use of Dicumarol after Operation. C. Adrian M. Hogben and Edgar V. Allen 369

The Effect of the Dependent Position upon Blood Flow in the Limbs
  Robert W. Wilkins, Meyer H. Halperin and Julius Litter 373

Cholesterol, Cholesterol Esters and Phospholipids in Health and in Coronary Artery Disease. II. Morphology and Serum Lipids in Man
  Menard M. Gerlier, Stanley Marion Garn and Howard B. Sprague 380

Circulatory Dynamics in Spontaneous and Nephrogenic Hypertensive Dogs during the Depressor Response to Acute Inflammation
  J. Stamler, A. P. Fishman, L. N. Katz and S. Rodbard 392

The Effect of Exercise on the Plasma Volume of Patients with Heart Failure
  Robert P. Gilbert and John K. Lewis 402

Antidiuretic Action of the Urine of Patients in Cardiac Failure
  Bernard A. Bercu, Stanley N. Rokaw and Edward Massie 409

Arterioles of Kidney and Pancreas in Cases of Cardiac Hypertrophy of Undetermined Cause
  Harold A. Ferris, Jr. 414

Intrabronchial Electrocardiography. A Preliminary Report
  Paul H. Langner, Jr. and Joseph P. Atkins 419

Paroxysmal Ventricular Tachycardia with Second Degree A-V Block and Reciprocal Rhythm
  Sidney Grau and James L. Gouaux 422

Transfixion of the Heart by Embedded Ice Pick Blade with Eight Month's Survival
  Harry J. Loven, Seymour A. Fink and Milton Helpern 426

Coronary Embolism: Review of the Literature and Report of a Unique Case
  Vincent Moragues, Malcolm Bawell and E. Lee Shrader 434

Atypical Secondary or Symptomatic Thrombocytopenic Purpura Developing with the Use of Quinidine Sulfate
  Donald C. Collins 438

Primary Systemic Amyloidosis Mimicking Chronic Constrictive Pericardial Disease
  William T. Couter and Rudolph E. Reichert, Jr. 441

Abstracts. 445

American Heart Association. 458

Program and Proceedings of the Annual Meeting of the American Society for the Study of Arteriosclerosis. 460

No. 4

  Mary Allen Engle and Helen B. Taussig 481

A Hypertensive Syndrome with Relative Adrenal Cortical Overactivity
  Dean F. Davies and Helen E. Clark 494
CONTENTS OF VOLUME II

The Nature of Pressor Substances in Pheochromocytomas
D. M. Pitcairn and W. B. Youmans 505

Effect of Strophanthus K on Coronary Blood Flow and Cardiac Oxygen Consumption of Normal and Failing Human Hearts

Age, Serum Cholesterol and Coronary Artery Disease
Menard M. Gertler, Stanley Marion Garn and E. F. Bland 517

The Effect of Desiccated Thyroid on Plasma and Tissue Lipids and Atherogenesis in the Stillbestrol-Treated Chick
J. Stamler, A. J. Miller, L. Akman, E. N. Silber, C. Bolene and L. N. Katz 523

Efficiency of Heparin in Retarding Media on the Maintenance of a Decreased Coagulability of the Blood
Helen I. Glueck, Clarence J. Podore and Joseph E. Levinson 530

The Metabolism of Lactate and Pyruvate in Children with Congenital Heart Disease
Richard J. Havel and Elton Watkins, Jr. 536

Pathology of the Pulmonary Vascular Tree. I. A Comparison of the Intrapulmonary Arteries in the Eisenmenger Complex and in Stenosis of Ostium Infundibuli Associated with Biventricular Origin of the Aorta
W. Harold Civin and Jesse E. Edwards 545

Hemodynamic Study of a Case of Anomalous Pulmonary Venous Drainage
W. Hwang, O. Prec, K. Kuramoto S. Segall and L. N. Katz 553

Survival to the Age of Seventy-Five Years with Congenital Pulmonary Stenosis and Patent Foramen Ovale
Paul D. White, John W. Hurst and Robert H. Fennell 558

Pulmonary Artery Aneurysms. Report of a Case Treated by Surgical Intervention
Brian Blades, William Ford and Patrick Clark 565

Electrokymographic Studies of the Left Atrium in Normal and Diseased Hearts
J. B. McKinnon and Ben Friedman 572

Normal Esophageal and Gastric Electrocardiograms. Description, Statistical Analysis and Bearing on Theories of "Electrocardiographic Position."
Albert D. Kurin, Warren D. Brill and George P. Robb 578

RS-T Segment Displacement in Induced Coronary Insufficiency as Studied with Esophageal Leads.....Leonard Scherlés, Avery A. Sandberg, Joseph Wener, Arthur M. Master and Arthur Grishman 598

A-V Conduction in Auricular Flutter
M. Besoaín-Santander, A. Pick and R. Langendorf 604

Abstracts ......................................................... 617

American Heart Association ........................................... 640

No. 5

The Fourth Walter Wile Hamburger Memorial Lecture, Institute of Medicine of Chicago. Some Aspects of the Pulmonary Circulation in Normal Man and in Chronic Cardiopulmonary Diseases....................... André Cournand 641

A Synthetic Anticoagulant: A Polysulfuric Acid Ester of Polyanhydromannuronic Acid (Paritol)..........................C. W. Sorenson and Irving S. Wright 658

Increasing Bacterial Resistance to the Antibiotics. A Study of 46 Cases of Streptococcus Endocarditis and 18 Cases of Staphylococcus Endocarditis
David C. Levinson, George C. Griffith and Harold E. Pearson 668

Spatial Vector Electrocardiography. A Method for Calculating the Spatial Electrical Vectors of the Heart from Conventional Leads............Robert P. Grant 676
CONTENTS OF VOLUME II

Diet, Serum Cholesterol and Coronary Artery Disease

Menard M. Gerster, Stanley Marion Garn and Paul Dudley White 696

Production of Experimental Cholesterol-Induced Atherosclerosis in Chicks with Minimal Hypercholesterolemia and Organ Lipidosis

J. Stalmer and L. N. Katz 705

Effect of Choline and Inositol on Plasma and Tissue Lipids and Atherosclerosis in the Cholesterol-Fed Chick .................. J. Stalmer, C. Bolene, R. Harris and L. N. Katz 714

Effect of Choline and Inositol on Plasma and Tissue Lipids and on Spontaneous and Stillbestrol-Induced Atherosclerosis in the Chick

J. Stalmer, C. Bolene, R. Harris and L. N. Katz 722

The George E. Brown Memorial Lecture. Fifteen Years of Progress in Cardiovascular Disease. The Role of the American Heart Association in Research

Edgar V. Allen 726

The American Heart Association as a National Voluntary Public Health Agency

W. P. Shepard 736

The Action of Cardiac Glycosides on Experimental Auricular Flutter

Alfred Farah and T. A. Loomis 742

The Renal Excretion of Digitoxin in the Normal Subject after Single and Continuous Administration of the Drug

Meyer Friedman, René Bine, Jr., Sanford O. Byers and Catherine Bland 749

An Empiric Approach to the Interpretation of the Low Frequency, Critically Damped Ballistocardiogram ..................... Richard J. Jones and Norman E. Goulder 756

Analysis of H Wave of Ballistocardiogram

Vincent de Lalla, Jr., Marvin A. Epstein and Herbert R. Brown, Jr. 765

Cardiac Performance Capacity and the Effect of Exercise on Renal Plasma Flow in Aortic Insufficiency

Thomas B. Gibbons, Austin Henschel, Henry Longstreet Taylor and Carleton B. Chapman 770

Abstracts ........................................................................................................ 776

Book Reviews .................................................................................................. 796

American Heart Association ........................................................................... 800

No. 6

Electrical Impedance Plethysmography. A Physical and Physiologic Approach to Peripheral Vascular Study ....................... Jan Nyboer 811

The Effect of Posture and of Congestion of the Head on Sodium Excretion in Normal Subjects ............ J. M. Lewis, Jr., R. M. Buie, S. M. Sevier and T. R. Harrison 822

Experimental and Clinical Evaluation in Man of Hexamethonium (C6), a New Ganglionic Blocking Agent

Frank A. Finnerty, Jr. and Edward Fries 828

The Subcutaneous Use of Heparin. A Summary of Observations

Geza de Takats 837

Oxygen Tension of Tissues by the Polarographic Method. II. Detection of Right to Left Shunts by Changes in Skin Oxygen Tension Resulting from Inhalation of Oxygen .................. Hugh Montgomery, Harry F. Zinsser, Jr., and Orville Horwitz 845

The Effect of Smoking upon Blood Flow in the Sympathectomized Limb

Samuel I. Rapaport, Hugh A. Frank and Theodore B. Massell 850

Myocarditis in Acute Infectious Diseases. A Clinical and Electrocadiographic Study

Irina Fine, Henry Brainerd and Maurice Sokolow 859
CONTENTS OF VOLUME II

Therapy of Paroxysmal Pulmonary Edema by Antifoaming Agents

Aldo A. Luisada 872

Congenital Aortic Septal Defect with Communication between Aorta and Pulmonary Artery. Case Report and Review of Literature

Herta Spencer and Harvey J. Dworken 880

Stokes-Adams Attacks Induced by Rectal Stimulation in a Patient with Complete Heart Block

Roy W. Scott and Salvatore M. Sancetta 886

The Ventricular Electrokymogram

L. C. Akman, A. J. Miller, E. N. Silber, J. A. Schack and L. N. Katz 890

Correlation of Simultaneously Recorded Electrokymograms and Pressure Pulses of Human Heart and Great Vessels. A Preliminary Report

A. H. Salans, J. A. Schack and L. N. Katz 900

Aortography in Infants

John D. Keith and Constance Forsyth 907

Aortic Length: Angiocardiographic Measurements

Charles T. Dotter, Douglas J. Roberts, Jr., and Israel Steinberg 915

The Nature of the RS-T Segment Displacement as Studied with Esophageal Leads.

III. The Effects of Digitalis

Avery A. Sandberg, Leonard Scherlis, Arthur Grishman and Joseph Wener 921

Clinical Progress: The Modern Treatment of Coronary Thrombosis with Myocardial Infarction

Irving S. Wright 929

Abstracts

937

American Heart Association
