EDITORIAL:

Stephen Hales, September 17, 1677–January 4, 1761. Howard B. Burchell...

ORIGINAL ARTICLES:

Precordial Scanning. Applications in the Detection of Left-to-Right Circulatory Shunts. William P. Cornell, Eugene Braunwald, and Andrew G. Morrow

An Electrocardiographic Pattern Associated with Mitral Valve Deformity in Marfan's Syndrome. Dorrance Bowers.

Relationship between the Electrocardiogram and the Position of the Heart as Determined by Biplane Angiocardiography. Warren G. Guntheroth, Carl-Olof Ovenfors, and Danae Ikkos.

Total Anomalous Pulmonary Venous Drainage at Cardiac Level. Angiocardiographic Differentiation. R. D. Rowe, I. H. Glass, and J. D. Keith.

Cor Triloculare Biatratum. Survival to Adult Life. William N. Chambers, Modestino G. Criscitiello, and Fairfield Goodale.

SYMPOSIUM ON CORONARY HEART DISEASE:

Measurements of Enzymes in the Diagnosis of Acute Myocardial Infarction. Milton W. Hamolsky and Nathan O. Kaplan.

Surgical Treatment of Angina Pectoris. Michael E. De Bakey and Walter S. Henly
CONTENTS OF VOLUME XXIII

CLINICAL PROGRESS:

Management of the Cardiac Patient Requiring Major Surgery. Stanford Wessler and Herrman L. Blumgart .......................................................... 121

SPECIAL REPORT:

Dietary Fat and Its Relation to Heart Attacks and Strokes. A Report by the Central Committee for Medical and Community Program of the American Heart Association .................................................. 133

BOOKS REVIEWED .......................................................... 137

BOOKS RECEIVED .......................................................... 140

ABSTRACTS .............................................................. 141

NEWS FROM THE AMERICAN HEART ASSOCIATION .................. 159

CONTRIBUTORS TO THIS ISSUE ........................................ 162

No. 2

EDITORIAL:

Thromboangiitis Obliterans: Fact or Fancy. Stanford Wessler .................. 165

ORIGINAL ARTICLES:

Essential Hypertension and Aldosterone. Eleanor H. Venning, Inge Dyrenfurth, John B. Dossetor, and John C. Beck ........................................... 168

Tomographic Evaluation of Hemodynamic Changes in Mitral Stenosis with a Statistical Note on Normal Tomographic Findings. M. J. Dulfano and H. Adler .......................................................... 177

A Hemodynamic Technic for the Detection of Hypertrophic Subaortic Stenosis. Edwin C. Bronckebrough, Eugene Braunwald, and Andrew G. Morrow ... 189

Ballistocardiographic Study in Severe Anemia. O. P. Tandon and B. C. Katiyar .......................................................... 195

Effects of Reduced Glomerular Filtration Rate on Responsiveness to Chlorothiazide and Mercurial Diuretics. P. C. Reubi and P. T. Cottier .............. 200

The Antihypertensive Actions of Benzothiadizines. Bertram M. Winer .... 211

Biochemical Studies in Full-Blooded Navajo Indians. II. Lipids and Lipoproteins. Robert J. Kositchek, Moses Wurm, and Reuben Straus .................. 219

The Electrocardiogram in Ventricular Septal Defect. Dennis J. Vines and John D. Keith .......................................................... 225

The Association of Complete Heart Block and Adams-Stokes Syndrome in Two Cases of Mobitz Type of Block. Case Reports. Jerome G. Kaufman, Fred W. Waechtel, Edwin Rothfield, and Arthur Bernstein .................. 253

Circulation, Volume XXIII, June 1961
CONTENTS OF VOLUME XXIII

SPECIAL ARTICLE:
William Harvey and His Contributions. Frederick G. Kilgour........... 286

CLINICAL PROGRESS:
The Clinical Value of Vectorcardiography. Franklin D. Johnston........ 297

ABSTRACTS ............................................................ 304

NEWS FROM THE AMERICAN HEART ASSOCIATION ...................... 320

CONTRIBUTORS TO THIS ISSUE ..................................... 323

No. 3

EDITORIAL:
Cardiogenic Shock in Acute Myocardial Infarction. Charles K. Friedberg... 325

ORIGINAL ARTICLES:
Atrial Infarction of the Heart. Chi Kong Liu, Gilbert Greenspan, and Ronald T. Pieceirillo .......................... 331
Congenital Mitral Insufficiency. Norman S. Talner, Aaron M. Stern, and Herbert E. Sloan ................. 339
Acute Hemorrhage and Necrosis of the Intestines Associated with Digitalization. Peter C. Gazes, Charles R. Holmes, Vince Moseley, and H. Rawling Pratt-Thomas ............................... 358
Studies on Digitalis. III. The Influence of Triiodothyronine on Digitalis Requirements. Robert L. Frye and Eugene Braunwald ................. 376
Premature Ventricular Depolarization. Cesar A. Caerez ..................... 383
Further Studies on a Theory of the Ballistocardiogram. Abraham Noordergraaf ........................................ 413
Physical Aspects of the "Direct" Recording of Body Displacement, Velocity, and Acceleration by Shin-Bar Ballistocardiographs. Abraham Noordergraaf ......................... 426

SPECIAL ARTICLE:
Some Physiopathologic Regularities in the Process of Dying and Resuscitation. V. A. Negovsky ........................................... 452

CLINICAL PROGRESS:
Recent Trends in Therapy of Cerebral Vascular Disease. Sigmund N. Groch and Irving S. Wright ................. 458

ABSTRACTS ............................................................ 466

## No. 4

### EDITORIAL:

The Congenital Bicuspid Aortic Valve. Jesse E. Edwards ................. 485

### ORIGINAL ARTICLES:

Primary Myocardial Disease. Noble O. Fowler, Mosche Gueron, and David T. Rowlands, Jr. .......................................................... 498

Aortic Stenosis. Correlations between Pressure Gradient and Left Ventricular Angiography. Viking Olov Björk, Ingemar Cullhed, and Herman Lodin ....... 509

The Value of Quinidine in the Prevention of Atrial Fibrillation after Mitral Valvuloplasty. Harrison Black, Bernard Lown, and Anthony F. Bartholomay ....... 519

Long-Term Results of Aortic-Pulmonary Anastomosis for Tetralogy of Fallot. An Analysis of the First 100 Cases Eleven to Thirteen Years after Operation. Milton H. Paul, Robert A. Miller, and Willis J. Potts ......................... 525

Clinical Evaluation of Intravenous Abdominal Aortography and Peripheral Arteriography. Israel Steinberg ............................................. 534

The Frequency of Aschoff Bodies in Atrial Appendages of Patients with Mitral Stenosis. Relationship to Age, Atrial Thrombosis, and Season. B. H. Ruebner and J. K. Boitnott ....................................................... 550

Sodium from Drinking Water as an Unsuspected Cause of Cardiac Decompensation. George B. Elliott and Elizabeth A. Alexander ....................... 562

Effect of Exercise on Electrocardiograms of Patients with Low Serum Potassium. A. J. Georgopoulos, W. L. Proudft, and Irvine H. Page ....................... 567

Plasma Heparin Levels. Correlation with Serum Cholesterol and Low-Density Lipoproteins. H. Engelberg ............................................. 573

Plasma Heparin Levels in Normal Man. H. Engelberg ........................ 578

The Mechanical Consequences of Anomalous Atrioventricular Excitation (WFW Syndrome). Harold W. March, Arthur Selzer, and Herbert N. Hultgren ...... 582

Aortic Pressures during Closed-Chest Cardiac Massage. Victor Gurewich, Arthur A. Sasahara, James S. Quinn, Catherine J. Peffer, and David Littmann ....................... 593

Isolated Incompetence of the Pulmonic Valve. Ben O. Price .................. 596

Origin of Both Great Vessels from the Right Ventricle. II. With Pulmonary Stenosis. Henry N. Neufeld, James W. DuShane, and Jesse E. Edwards ....... 603

### CLINICAL PROGRESS:

### ABSTRACTS
