CIRCULATION

VOLUME XXVIII

July-December 1963

No. 1

EDITORIAL:
Coronary Artery Disease and Myocardial Infarction. Robert C. Horn, Jr. ................................................. 1

ORIGINAL ARTICLES:
Epinephrine in the Treatment of Cardiac Failure due to Shunts. Abraham M. Rudolph, Emmanuel Mesel, and Jay M. Levy ............................................. 3
Subclavian Steal. Carl L. Williams, Stewart M. Scott, and Timothy Takaro .......................................................... 14
Bigeminy on Exertion. Muhammad Abdel Razzak .......................................................... 32
Location of Coronary Arterial Occlusions and Their Relation to the Arterial Pattern. Bertram Pitt, Paul M. Zoll, Herrman L. Blumgart, and David G. Freiman .................................................................................. 35
Physiologic Studies Early after Repair of Tetralogy of Fallot. Richard A. Theye and John W. Kirklin .......................................................... 42
The Role of Catecholamines in the Free Fatty Acid Response to Cigarette Smoking. Alfred Kershbaum, Rostam Khorsandian, Raymond F. Caplan, Samuel Bellet, and Leonard J. Feinberg ......................................................... 52
Comparison of the Thrombotest with the Modified Quick Test. Drug-Induced Hypoprothrombinemia Countered with Phytonadione. Milton Shoshk's and Melvin Odze ........................................................................ 58
Atrial Activity and Systemic Blood Pressure during Anesthesia in Man. Myron B. Laver and Herman Turndorf ........................................................................ 63

CONTENTS OF VOLUME XXVIII

Chronic Pericardial Effusion Complicating Endomyocardial Fibrosis. D. Gordon Abrahams and E. H. O. Parry .......................... 221

Basilar Artery Insufficiency Secondary to Obstruction of Left Subclavian Artery. Gordon Sproul ................................................ 259

Pathology of the Cardiac Conduction System in a Case of Diphtheria Associated with Atrial Arrhythmias and Heart Block. Thomas N. James and Ernest W. Reynolds, Jr. ............................................................. 263

COMMITTEE REPORT:

Minority Report of the Effect of Strain and Trauma on the Heart and Great Vessels. J. C. Paterson ................................................ 268

SYMPOSUM:

Pitfalls in Diagnosing Coronary Artery Disease. Louis N. Katz, Moderator, E. N. Silber, Charles E. Kossmann, George E. Burch, and Herrman L. Blumgart ................................................ 274

CLINICAL PROGRESS:

Pulmonary Stenosis. Electrocardiographic, Vectorcardiographic, and Catheterization Data. Leonard Sheferlis, Rolf J. Koenker, and Yu-Chen Lee ......................... 288

ABSTRACTS ............................................................ 306

NEWS FROM THE AMERICAN HEART ASSOCIATION .................. 318

CONTRIBUTORS TO THIS ISSUE ........................................ 321

No. 3

EDITORIAL:

Cardiovascular and Biomedical Research Support in the United States with Particular Reference to National Voluntary and Official Health Agencies. George E. Wakerlin ................................................ 323

ORIGINAL ARTICLES:

Rebound Phenomena after Anticoagulant Therapy in Cerebrovascular Disease. John Marshall .......................................................... 329
CONTENTS OF VOLUME XXVIII

Demonstration of Peripheral Conduction System in Human Hearts. Madison S. Spach, Shao-nan Huang, Sara I. Armstrong, and Ramon V. Canent, Jr...

333

An Angiocardiographic Analysis of the Thickness of the Left Ventricular Wall and Cavity in Aortic Stenosis and Other Valvular Lesions. Hemodynamic-angiographic Correlations in Patients with Obstruction to Left Ventricular Outflow. Norman D. Levine, S. David Rockoff, and Eugene Braunwald...

339

Hemodynamic Effects of Chronic Severe Anemia. Sujoy B. Roy, Madan L. Bhatia, Virender S. Mathur, and Shyama Virmani...

346

357

Analysis of the RSR' Complex in Lead V1. N. P. DePasquale and G. E. Burch ...

362

Hypertension and Ischemic Heart Disease in Hiroshima, Japan. Sam Switzer...

368

Coronary Heart Disease among Minnesota Business and Professional Men Followed Fifteen Years. Annel Keys, Henry Longstreet Taylor, Henry Blackburn, Josef Brozek, Joseph T. Anderson, and Ernst Simonson...

381

Changes in Pulmonary Hemodynamics Produced by Isoproterenol Infusion in Emphysematous Patients. John F. Williams, Jr., Douglas H. White, Jr., and Roy H. Behnke...

396

Effect of Exercise on Cardiac Performance in Human Subjects with Coronary Artery Disease. Joseph V. Messer, Herbert J. Levine, Richard J. Wagman, and Richard Gorlin...

404

415

Digital Hemodynamics in the Normotensive and Hypertensive States. II. Vemotor Tone. Francis S. Caliva, Rudolph J. Napodano, and Richard H. Lyons

421

Pseudoaneurysm of the Heart. Report of a Case and Review of Literature. Clyde O. Hurst, Gerald Fine, and John W. Keyes...

427

Single Coronary Artery with Fistulous Communication. Report of Two Cases. Raymond H. Murray...

437

Observations on the Pulmonary Vasculature in a Case of Centrilobular Emphysema with Hemosiderosis. Donald Heath, R. M. Norris, and Paul Davison...

444

Mitral Valve Area: Measurement Soon after Catheterization. Report of a Case. Howard S. Richter...

451

CLINICAL PROGRESS:

External and Internal Electric Cardiac Pacemakers. Paul M. Zoll and Arthur J. Linenthal...

Circulation, Volume XXVIII, December 1963

Downloaded from http://circ.ahajournals.org/ by guest on November 16, 2017
CONTENTS OF VOLUME XXVIII

No. 4

PART ONE

EDITORIAL:

Some Instrumental Errors in Electrocardiography. Gordon E. Dower........ 483

ORIGIONAL ARTICLES:

The Antiarrhythmic Properties of Lidocaine and Procaine Amide. Clinical
and Physiologic Studies of Their Cardiovascular Effects in Man. Donald C.
Harrison, J. Henry Sprouse, and Andrew G. Morrow....................... 486

Studies on the Metabolism and Mechanism of Action of Methyldopa. Albert
Sjoerdsma, Aado Vendsalu, and Karl Engelman.......................... 492

Cinefluorographic Studies of the Extracranial Cerebral Circulation. Robert
E. Whalen, Albert Heyman, and Henry D. McIntosh....................... 503

Effect of Heart Rate, Exercise, and Nitroglycerin on the Cardiac Dynamics
in Complete Heart Block. Alberto Benchimol, Yeou-Bing Li, E. Grey Dimond,
Robert B. Voth, and Arnold S. Roland.................................. 510

Intrapericardial Aortico-Pulmonary Artery Shunt. S. Frank Redo and Roger
R. Eeke ................................................................. 520

Fallot's Tetralogy. A Postoperative Study. P. R. Allison, A. J. Gunning,
J. Hamill, and S. M. Mody............................................ 525

Dextro-Thyroxine as a Cholesterol-Lowering Agent in Patients with Angina
Pectoris. Roger W. Robinson and Raoul J. LeBeau.......................... 531

Observations on Renal Hypertension. The Role of Renal Biopsy. Victor Vertes
and James A. Grauel................................................. 536

The Clinical Usefulness of Hydrogen Gas as an Indicator of Left-to-Right
Gamble, Anna J. Hauek, and Alexander S. Nadas.......................... 542

The Cost of Respiratory Effort in Postoperative Cardiac Patients. Nalda
Thung, P. Herzog, Ignacio I. Christlieb, W. M. Thompson, Jr., and
J. Francis Dammann, Jr.................................................. 552

Further Observations on the Natural History of Isolated Ventricular Septal
Defects in Infancy and Childhood. Serial Cardiac Catheterization Studies
in 75 Patients. Rene A. Arcilla, Magnus H. Agustsson, J. Pedro Bicoff,
Joshua Lynfield, Milton Weinberg, Jr., Egbert H. Fell, and Benjamin
M. Gasul ............................................................... 560

Combined Supravalvular Aortic and Pulmonic Stenosis. M. G. Bourassa and
L. Campeau .................................................................... 572

Left Ventriculography Following Mitral Valve Replacement. A Case Report.
Charles T. Dotter, Albert Starr, and Masao Tamaki........................ 582

Perforation of Heart during Cardiac Catheterization and Selective Angio-
cardiography. P. G. Keates and G. R. Wagner.............................. 585
CONGENITAL ANEURYSM OF AORTIC ROOT WITH FISTULA TO LEFT VENTRICLE. A CASE REPORT WITH AUTOPSY FINDINGS. R. Irvin Morgan and John H. Mazur...... 589

SYMPOSIUM:

CLINICAL PROGRESS:

CURRENT CONCEPTS IN SURGICAL CORRECTION OF ACQUIRED MITRAL INSUFFICIENCY. Malcolm B. McKenzie and F. Henry Ellis, Jr......................... 603

ABSTRACTS .................................................. 617

NEWS FROM THE AMERICAN HEART ASSOCIATION................. 636

CONTRIBUTORS TO THIS ISSUE........................................ 640

PART TWO

ABSTRACTS, AMERICAN HEART ASSOCIATION, 36TH ANNUAL SCIENTIFIC SESSIONS, AND 17TH ANNUAL MEETING, COUNCIL ON ARTERIOSCLEROSIS......................... 643

No. 5

EDITORIAL:

ON LYMPH AND LYMPHATICS. H. S. Mayerson.......................... 839

ORIGINAL ARTICLES:

INTERATRIAL COMMUNICATION AND LEFT ATRIAL HYPERTENSION. A CAUSE OF CONTINUOUS MURMUR. John Ross, Jr., Eugene Braunwald, Dean T. Mason, Nina S. Braunwald, and Andrew G. Morrow................................. 853

THE CONTINUOUS HEART RATE IN MEN EXHIBITING AN OVERT BEHAVIOR PATTERN ASSOCIATED WITH INCREASED INCIDENCE OF CLINICAL CORONARY ARTERY DISEASE. Meyer Friedman, Ray H. Rosenman, and Alvin E. Brown...................... 861

STUDIES ON THE MECHANISM OF THE ABNORMAL SODIUM EXCRETION IN ARTERIAL HYPERTENSION. Irwin B. Hanenson, Edmond Ricanati, and Nathan Polasky.. 867

OBSERVATIONS ON THE ATRIAL SOUND IN HYPERTENSION. Hermes A. Kontos, William Shapiro, and V. Eric Kemp........................................... 877

COMPLETE TRANSPOSITION OF THE GREAT VESSELS: IMPORTANCE OF SEPTAL DEFECTS AND PATENT DUCTUS ARTERIOSUS. ANALYSIS OF 132 PATIENTS DYING BEFORE AGE 4. Ib Boesen ................................................... 885

* Circulation, Volume XXVIII, December 1963
CONTENTS OF VOLUME XXVIII

Effects of Surface-Active Aerosols and Pulmonary Congestion on Lung Compliance and Resistance. Richard A. Obenour, Herbert A. Saltzman, Herbert O. Sieker, and James L. Green. .................................................. 888

Long-Term (10 to 13 Years) Follow-Up Study after Transventricular Pulmonary Valvulotomy for Pulmonary Stenosis with Intact Ventricular Septum. M. Mirowski, Kishor D. Shah, Catherine A. Neill, and Helen B. Taussig. .... 906

The Terminal Portion of the Pulmonary Arterial Tree in People Native to High Altitudes. Javier Arias-Stella and Mario Saldaña. .................. 915

Coronary Heart Disease and Hypertension in the White Mountain Apache Tribe. Nathan J. Clifford, John J. Kelly, Jr., Thomas F. Leo, and Howard A. Eder. .......... 926

Massive Myocardial Necrosis with Calcification. Report of Two Cases of Possible Hypokalemic Etiology. Margaret S. Littman and W. R. Meadows. .. 938

Communication of the Coronary Sinus with the Left Atrium. H. Edward MacMahon ................................................................. 947

Congenital Aneurysm of the Left Aortic Sinus. A Rare Lesion and a Rare Cause of Coronary Insufficiency. Robert S. Eliot, Adrian Wolbrink, and Jesse E. Edwards .............................................................. 951

CLINICAL PROGRESS:
Symposium: The Role of the Adrenergic Nervous System in Cardiovascular Control:
Introduction. Richard S. Ross. .................................................. 957

Studies on the Function of the Adrenergic Nerve Endings in the Heart. Eugene Braunwald, Charles A. Chidsey, Donald C. Harrison, Thomas E. Gaffney, and Richard L. Kahler. ............................................... 958

Recent Views on Mechanisms for Lowering Sympathetic Tone. Bernard B. Brodie ................................................................. 970

Adrenergic Receptors Within the Cardiovascular System. Neil C. Moran. 987

BOOK REVIEWS ................................................................. 994

BOOKS RECEIVED ............................................................... 1003

ABSTRACTS ................................................................. 1005

NEWS FROM THE AMERICAN HEART ASSOCIATION .................. 1024

CONTRIBUTORS TO THIS ISSUE .................................................. 1028

EDITORIAL:
Clinical Use of Digitalis: Science or Empiricism? Arthur Selzer .......... 1031
CONTENTS OF VOLUME XXVIII

ORIGINAL ARTICLES:

Selective Renal Arteriography in the Diagnosis of Renal Hypertension. Thomas F. Meaney and Harriet P. Dustan ................................................................. 1035

Five Years’ Experience with the Evaluation of Diuretic Agents. Charles Swartz, Robert Seller, Morton Fuehs, Albert N. Brest, and John H. Moyer .......... 1042

Persistent Truncus Arteriosus: A Clinical, Hemodynamic and Autopsy Study of Nineteen Cases. Rajendra Tandon, Anna J. Hauck, and Alexander S. Nadas ........................................ 1050

Cardiac Performance after Open Intracardiac Surgery. John W. Kirklin and Richard A. Theye ........................................................................... 1061

Pathogenesis of Dissecting Aneurysm. Herbert Braunstein ......................................................... 1071

Cardiac Hypertrophy in Acute Myocardial Infarction. A Study Based on 100 Autopsied Cases. Edward C. Zaino and Sidney H. Tabor ........................................ 1081

Congenital Aortic Stenosis Syndrome in Infancy. Alois R. Hastreiter, Masahiro Oshima, Robert A. Miller, Maurice Lev, and Milton H. Paul ............... 1084

Hypertonicity Following Selective Angiocardiography. Samuel T. Giannonna, Paul R. Lurie, and William E. Segar .......................................................................... 1096

Spread of the “Mitrail” Sound over the Chest: A Study of Five Subjects with the Starr-Edwards Valve. P. M. Shah, D. M. MacCanon, and A. A. Luisada 1102

The Giant “A” Wave of the Left Atrial Appendage. D. Edmond Miller, Donald H. Tucker, and William J. Jacoby, Jr ........................................... 1110

The Electrocardiogram in Patients with Both Great Vessels Arising from the Right Ventricle Combined with Pulmonary Stenosis. An Analysis of 22 Cases with Special Reference to the Differential Diagnosis from the Tetralogy of Fallot. M. Mirowski, Ali Mehrizi, and Helen B. Taussig .................. 1116

Modification of the Atrial Sound by the Cold Pressor Test, Carotid Sinus Massage, and the Valsalva Maneuver. Willard S. Harris, Philip Rodin, and Bernard Tabatznik ............................................... 1128

Left-Sided Patent Ductus Arteriosus and Right-Sided Aortic Arch. Angiocardiographic Findings in Three Cases. Israel Steinberg .................................................. 1138

Rupture of the Coronary Sinus with Hemopericardium. A Rare Complication of Coronary Arteriovenous Fistula. J. H. Habermann, M. L. Howard, and E. S. Johnson ............................................................ 1143

The Congenital Variety of the “Subclavian Steal” Syndrome. R. A. Massumi . 1149

CLINICAL PROGRESS:

Possibly Unrecognized Forms of Heart Disease. Howard B. Burchell ........ 1153
