AHA Scientific Sessions
Abstracts Due May 15

Six Clinical Sessions of particular interest to practicing physicians will be held simultaneously with scientific programs on various phases of cardiovascular research during the 37th annual Scientific Sessions of the American Heart Association.

The sessions are scheduled from October 23-25 at Convention Hall, Atlantic City, N. J. Headquarters hotel will be the Chalfonte-Haddon Hall.

Panels, symposia, lectures and papers on related investigations will be presented at each of the Clinical Sessions. The Association’s eight Councils will sponsor concurrent scientific reports on basic cardiovascular research. The American Academy of General Practice has approved Category II credit for its members attending the sessions.

As in the past, the program will also include Saturday evening Cardiovascular Conferences for informal group discussion of timely problems and an all-day showing of cardiovascular films.

The deadline for receiving abstracts of papers to be presented at the Scientific Sessions is May 15, 1964. Papers should be based on original investigative work in the cardiovascular or related fields. Abstracts are limited to 250 words, and must include a brief summary of results obtained and conclusions drawn.

Forms for submitting abstracts and applying for space for scientific exhibits may be obtained from Richard E. Hurley, M.D., at the American Heart Association. Space for industrial exhibits may be requested through Steven K. Herlitz, Inc., 280 Madison Avenue, New York, N. Y. 10016.

May 15 is Abstracts Deadline
For Arteriosclerosis Meeting

Abstracts of papers to be presented at the annual meeting of the Association’s Council on Arteriosclerosis, scheduled for October 21-22 in the Hotel Shelburne, Atlantic City, immediately preceding the AHA Annual Scientific Sessions, must be received by May 15, 1964.

Forms for submitting abstracts, not to exceed 250 words, may be obtained from Douglas M. Smith, American Heart Association, 44 East 23rd Street, New York, N. Y. 10010.

Members and non-members are invited to submit abstracts. The Council sessions will be open to all interested individuals.

3-Day Cardiology Sessions
Set for New York, Denver

The AHA Council on Clinical Cardiology has scheduled its next postgraduate courses, “Three Days of Cardiology,” for New York City on June 10-12 and for Denver on July 29-31.

The New York course, on “Hemodynamic Basis for Auscultation,” will be directed by J. Scott Butterworth, M.D., of New York University School of Medicine, which is co-sponsoring the sessions with the New York Heart Association. Participating as faculty will be Drs. J. Willis Hurst of Atlanta and W. Proctor Harvey of Washington, D. C. The course will be held at the University’s Medical Center.

“Problems in Congenital Heart Disease” will be discussed at the Denver sessions. This course is co-sponsored by the University of Colorado Medical Center and the Colorado Heart Association. S. Gilbert Blount, M.D.,
of the University’s faculty, will be the course
director.

Fellows and members of the Council on
Clinical Cardiology are charged $50 for the
three-day courses. Non-members pay $75.
Registration forms for the courses or applica-
tions for Council membership may be obtained
from the Director of Medical Education at the
American Heart Association.

Research Committee Reports
On ISC Yugoslavia Sessions

The Research Committee of the Interna-
tional Society of Cardiology met September
18-23, 1963, at Makarska, Yugoslavia. A total
of 54 participants represented 20 countries.
Included were consultants and representatives
of the World Health Organization, the Interna-
tional Cardiology Foundation and the U. S.
Public Health Service.

Pending the World Congress in New Delhi
in 1966, subcommittees were established for:
Nomenclature and Criteria, Lipid Metabolism
and the Diet, Epidemiology, Electrocardiog-
raphy, Vectorcardiography and Computer
Applications, and Hypertension. A Sub-Com-
mittee in Physiology will also be organized.

Reports of four working groups were dis-
cussed and adopted as the considered opinion
of the Research Committee on current ac-
tivities, opportunities and needs in the follow-
ing areas: Epidemiology of Special Population
Groups; Clinical Physiology; Lipid Metabo-
lism and the Diet; Electrocardiography; Vec-
torcardiography and Complete Applications.

The Research Committee and Consultants
agreed on topics for critical reports at the 1966
World Congress on Cardiology in New Delhi.
Highest priority was given to: 1) Current Sta-
tus of Cardiopulmonary Function (Methods
and Applications); 2) Evaluation of Cardio-
vascular and Cardiopulmonary Function after
Cardiovascular Surgery; 3) Physical Activity
in Relation to Cardiovascular Function and
Disease.

Also chosen for attention were: Chronic
and Acute Cardiovascular Responses and
Adaptations to High Altitude; Effects of Heat
and Cold on Cardiovascular Functions; Ap-
plication of Computer Systems to Electrocar-
diography and other Cardiovascular Record-
ings; Premocious Ischemic Heart Disease; and
Etiology, Pathogenesis and Clinical Picture of
Cardiomyopathies.

The Committee re-emphasized the impor-
tance of international cooperation, the need
for standardization of methods and criteria
and the need for improved communication in
research on cardiovascular function and dis-
ease. In this connection, efforts of the World
Health Organization, the International So-
ciety and its member societies throughout the
world were applauded.

It was agreed to organize small technical
meetings in Helsinki, in August, 1964, on
Physical Activity and Cardiovascular Disease,
and in Rome, in mid-1964, on Cardiovascular
responses to Thermal Stresses. The Commit-
tee scheduled its next full meeting for the
Spring of 1965 in Italy. Brief meetings of 15
to 20 members of the Committee will be held
in connection with the Asian-Pacific and the
Inter-European Congresses on Cardiology in
Kyoto, Japan (May, 1964) and in Prague,
Czechoslovakia (August, 1964).

The meeting at Makarska was aided by
grants from the International Cardiology
Foundation and from private sources.

Copies of the full Makarska Report may be
obtained from the offices of the International
Cardiology Foundation, 264 Beacon Street,
Boston, Massachusetts, 02116; the Executive
Secretary of the International Society of
Cardiology, Dr. V. Puddu, Via Savoia 80,
Rome, Italy; or the Executive Secretary of the
Research Committee, Prof. Jean-Lequime,
Hospital Universitaire Saint-Pierre 322, rue
Haute, Bruxelles 1, Belgium.

Named as members of the Research Com-
mittee were:

Honorary Chairman: Paul Dudley White (U.S.A.);
Chairman: Ancel Keys (U.S.A.); Vice-Chairman:
Alberto Taquini (Argentina); Executive Secretary:
Jean Lequime (Belgium)

Members: D. Alexandrow (Poland), T. J. Damaraj (Malaya),
Luís Decourt (Brazil), K. Holldack (Germany), R. Ivancic
(Yugoslavia), A. Morgan Jones (England), Noboru Kimura
(Japan), Charles Kossman (U.S.A.), Jean Lenegre (France),
Kempson Maddox (Australia), Maurice Nellen (South Africa),
V. V. Parin (U.S.S.R.), Sujoy B. Roy (India), A. M. Sanni
(Philipines), A. G. Shaper (Uganda), Aly H. Sorour (Egypt),
J. Standler (U.S.A.), M. Toor (Israel), Lars Werko (Sweden).
Corresponding Secretaries: E. Barbato (Brazil), I. Prior (New
Zealand), M. Vansteeg (Belgium). Liaison Members: Z.
Meetings Calendar

June 10-12: 3 Days of Cardiology (Hemodynamic Basis for Auscultation), New York. Dr. F. J. Lewy, American Heart Association, 44 E. 23rd Street, New York, N. Y. 10010.

June 24: AHA Council on Clinical Cardiology—American College of Cardiology—American Medical Association, joint meeting, San Francisco. AHA Medical Education Dept., 44 E. 23rd Street, New York, N. Y. 10010.

July 29-31: 3 Days of Cardiology (Congenital Heart Disease) Denver. Dr. F. J. Lewy, American Heart Association, 44 East 23rd Street, New York, N. Y. 10010.

September 10-11: Symposium, Chemical Applications of Electronics in Cardiovascular Disease, Rochester, Minn. J. F. McNally, Mayo Clinic, Rochester, Minnesota.

September 29-October 2: American Roentgen Ray Society, Minneapolis. Dr. C. Allen Good. Mayo Clinic, Rochester, Minnesota.

October 5-9: American College of Surgeons, Chicago. Dr. John P. North, 55 E. Erie, Chicago 11, Illinois.

November 9-11: 3 Days of Cardiology, Philadelphia. Dr. F. J. Lewy, American Heart Association, 44 E. 23rd St., New York, N. Y. 10010.

November 29-December 2: American Medical Association (Clinical Meeting) Miami Beach. Dr. F. J. L. Blasingame, 535 N. Dearborn, Chicago 60610.

Abroad

July 20-24: International Diabetes Federation (5th Congress), Toronto. H. B. M. Best, 477 Mt. Pleasant Road, Toronto 7, Canada.

August 17-22: European Congress of Cardiology, Prague. Dr. H. Kafka, Karlovo-nam 32, Prague 2, Czechoslovakia.

CONTRIBUTORS TO THIS ISSUE

Ray C. Anderson, M.D.
Associate Professor of Pediatrics, University of Minnesota, Minneapolis, Minnesota.

J. Gordon Barrow, M.D.
Director, Cardiovascular Disease Control Service, Georgia Department of Public Health; Director, Crippled Children's Service Cardiac Clinic; Associate Professor of Medicine, Emory University School of Medicine; Director, Department of Medical Education, Georgia Baptist Hospital, Atlanta, Georgia.

Honorary Assistant Physician, Sydney Hospital; Physician to the Cardio-Vascular Clinic, Sydney Hospital; Tutor in Medicine, University of Sydney, Sydney, Australia.

David Baum, M.D.
Fellow in Pediatrics, Mayo Foundation, Graduate School, University of Minnesota, Rochester, Minnesota.

Eugene Braunwald, M.D.
Chief, Cardiology Branch, National Heart Institute, Bethesda, Maryland.

Henry Buchwald, M.D.
Helen Hay Whitney Fellow, Department of Surgery, University of Minnesota, Minneapolis, Minnesota.

Charles C. J. Carpenter, M.D.
Assistant Professor of Medicine, Johns Hopkins University School of Medicine, Baltimore, Maryland.

Yank D. Coble, M.D.
Present address: The New York Hospital, New York, New York.

Sidney Cohen, M.D.
Research Fellow, Department of Medicine, The Ohio State University, Columbus, Ohio.

George J. D'Angelo, M.D.
Cardiovascular Surgeon, Cardiovascular Unit of Hamot Hospital, Erie, Pennsylvania.

Harold T. Dodge, M.D.
Chief, Cardiovascular Service, Veterans Administration Hospital; Associate Professor of Medicine, University of Washington School of Medicine, Seattle, Washington.

Jesse E. Edwards, M.D.
Director of Laboratories, The Charles T. Miller Hospital, St. Paul, Minnesota; Clinical Professor of Pathology, School of Medicine and Professor of Pathology, Graduate School, University of Minnesota, Minneapolis, Minnesota.

Larry P. Elliott, M.D.
Fellow (Diagnostic Radiology), University of Minnesota Hospitals, Minneapolis, Minnesota; Research Trainee (Cardiovascular Pathology), The Charles T. Miller Hospital, St. Paul, Minnesota.

John R. Esterly, M.D.
Assistant Resident in Pathology, Johns Hopkins Hospital, Baltimore, Maryland.

Gordon M. Folger, Jr., M.D.
Fellow in Pediatric Cardiology, Johns Hopkins University School of Medicine; Assistant Physician, Harriet Lane Home Cardiac Clinic, Johns Hopkins Hospital, Baltimore, Maryland.

Herbert L. Fred, M.D.
Assistant Professor of Medicine and Director, Medical In-Patient Service, The Ben Taub General Hospital and the Baylor University College of Medicine, Houston, Texas.

William G. Gamel, M.D.
Formerly Medical Student, The University of Texas Medical Branch, Galveston, Texas.

David L. Glancy, M.D.
Senior Assistant Resident, Medical Service, Grady Memorial Hospital and Emory University School of Medicine, Atlanta, Georgia. Formerly, Assistant Resident, Osler Medical Service, Johns Hopkins Hospital, Baltimore, Maryland.

Harvey E. Grode, M.D.
Formerly U. S. Public Health Service Research Fellow, Department of Medicine, The Ohio State University, Columbus, Ohio.

Robert E. Hay, M.D.
Research Fellow, Washington State Heart Association; Research Fellow and Assistant in Medicine, University of Washington School of Medicine, Seattle, Washington. Present address: Canyon Medical Center, Nampa, Idaho.

Herman K. Hellerstein, M.D.
Assistant Professor of Medicine, Western Reserve School of Medicine, Cleveland, Ohio.

Arno Hohn, M.D.
Instructor in Pediatrics, State University of New York at Buffalo, School of Medicine, Buffalo, New York.

John Eager Howard, M.D.
Professor of Medicine, The Johns Hopkins University School of Medicine, Baltimore, Maryland.

Kenneth L. Jue, M.D.
Medical Fellow Specialist, Department of Pediatrics, University of Minnesota, Minneapolis, Minnesota; Postdoctoral Fellow, National Heart Institute, U. S. Public Health Service.

George H. Khoury, M.D.
Fellow in Pediatric Cardiology, Mayo Foundation, Graduate School, University of Minnesota, Rochester, Minnesota.

Owings W. Kincaid, M.D., M.S. (Radiology)
Consultant, Section of Roentgenology, Mayo Clinic; Assistant Professor of Radiology, Mayo Foundation, Graduate School, University of Minnesota, Rochester, Minnesota.

William S. Kiser, M.D.
Staff Urologist, Surgery Branch, National Cancer Institute, Bethesda, Maryland.

George C. Knovick, Capt., MC
Third Year Resident in Pathology, Walter Reed General Hospital, Washington, D. C.

Lawrence E. Lamb, M.D.
Professor of Internal Medicine, Chief, Clinical Sciences Division, USAF School of Aerospace Medicine, Brooks Air Force Base, Texas.
Edward C. Lambert, M.D.
Associate Professor of Pediatrics, State University of New York at Buffalo, School of Medicine, Buffalo, New York.

Ali Mehrizi, M.D.
Instructor in Pediatric Cardiology, Harriet Lane Home Cardiac Clinic, Johns Hopkins Hospital, Johns Hopkins University School of Medicine, Baltimore, Maryland.

Charles E. Mullins, Capt., MC
Pediatric Cardiology, 2nd General Hospital, APO 180, New York, New York.

Richard A. Naiman, M.D.
Formerly, S.A. Surgeon, U. S. Public Health Service, Cardiovascular Disease Control Service, Georgia Department of Public Health, Atlanta, Georgia. Present address: Grady Memorial Hospital, Atlanta, Georgia.

T. P. B. O'Donovan, M.D.
Fellow in Medicine, Mayo Foundation, Graduate School, University of Minnesota, Rochester, Minnesota.

Patrick A. Ongley, M.B., Ch.B.
Consultant, Section of Pediatrics, Mayo Clinic; Associate Professor of Pediatrics, Mayo Foundation, Graduate School, University of Minnesota, Rochester, Minnesota.

Philip J. Osmundson, M.D., M.S. (Medicine)
Consultant, Section of Medicine, Mayo Clinic; Instructor in Medicine, Mayo Foundation, Graduate School, University of Minnesota, Rochester, Minnesota.

W. Spencer Payne, M.D., M.S. (Surgery)
Consultant, Section of Surgery, Mayo Clinic; Instructor in Surgery, Mayo Foundation, Graduate School, University of Minnesota, Rochester, Minnesota.

Zoltan Petranyi, M.D.
Assistant Professor of Radiology, Department of Radiology, The Ben Taub General Hospital and Baylor University College of Medicine, Houston, Texas.

Lawrence W. Pollard, Major, MC, USAF
Department of Internal Medicine, USAF School of Aerospace Medicine, Brooks Air Force Base, Texas.

Charles E. Rackley, M.D.
Postdoctoral Fellow, National Institutes of Health; Research Fellow and Assistant in Medicine, University of Washington School of Medicine, Seattle, Washington. Present address: Duke University Hospital, Durham, North Carolina.

William C. Roberts, M.D.
Chief, Laboratory of Pathology, Clinic of Surgery, National Heart Institute, National Institutes of Health, Bethesda, Maryland. Formerly, Assistant Resident, Osler Medical Service, Johns Hopkins Hospital, Baltimore, Maryland.

John Ross, Jr., M.D.
Chief, Cardiovascular Diagnosis Section, Cardiology Branch, National Heart Institute, Bethesda, Maryland.

Herbert D. Rutenberg, M.D.
Formerly, Medical Fellow Specialist, Department of Pediatrics, University of Minnesota, Minneapolis, Minnesota; Postdoctoral Fellow (HF 13, 715), National Heart Institute, U. S. Public Health Service; Research Associate (Cardiovascular Pathology), The Charles T. Miller Hospital, St. Paul, Minnesota. Currently, Department of Physiology, University of Washington, Seattle, Washington.

Clyde D. Schoenfeld, M.D.
Research Fellow, Department of Medicine, The Ohio State University, Columbus, Ohio.

Kishor D. Shah, M.D.
Fellow in Medicine, Johns Hopkins University School of Medicine and The Wellcome Research Laboratory, Johns Hopkins Hospital, Baltimore, Maryland.

Raphael F. Smith, M.D.
Research Assistant, U. S. Naval School of Aviation Medicine, Pensacola, Florida.

H. J. C. Swan, M.B., Ph.D., M.R.C.P.
Consultant, Section of Physiology, Mayo Clinic; Associate Professor of Physiology, Mayo Foundation, Graduate School, University of Minnesota, Rochester, Minnesota.

Herbert L. Tanenbaum, M.D.
Director, Cardiopulmonary Laboratory, Washington Hospital Center; Clinical Instructor of Medicine, Georgetown Medical School, Washington, D. C.

John B. Tredway, M.D.
Cardiologist, Cardiovascular Unit of Hamot Hospital, Erie, Pennsylvania.

William L. Underhill, M.D.
Assistant Cardiologist, Cardiovascular Unit of Hamot Hospital, Erie, Pennsylvania.

Peter Vlad, M.D.
Assistant Professor of Pediatrics, State University of New York at Buffalo, School of Medicine, Buffalo, New York.

George E. Wakerlin, M.D., Ph.D.
Medical Director, American Heart Association, New York, New York.

Colin H. M. Walker, M.D.
Assistant Professor of Pediatrics, University of Colorado Medical Center; Director, Denver Rheumatic Fever Diagnostic Service, Colorado Heart Association, Denver, Colorado.

Weldon J. Walker, M.D.
Chief, Cardiovascular Service, Walter Reed General Hospital; Consultant in Cardiology to the Surgeon General, Department of the Army, Washington, D. C.

Walt F. Weaver, M.D.
Formerly, Clinical Assistant in Medicine, University of Colorado Medical Center and U. S. Public Health Service Heart Disease Control Officer, Colorado State Department of Public Health, Denver, Colorado. Presently, Director, Cardiopulmonary Laboratory, Bryan Memorial Hospital, Lincoln, Nebraska.

Arnold M. Weissler, M.D.
Associate Professor, Department of Medicine, The Ohio State University, Columbus, Ohio.

Don C. Wukasch, M.D.
Formerly, Surgical Intern, The Ben Taub General Hospital, Houston, Texas. Presently, Member of United States Peace Corps.
