CIRCULATION
VOLUME XXXVIII
July-December 1968

No. 1 (July)

EDITORIALS:
Evaluation of Results of Cardiac Surgery—Supplement to the July Issue. Lewis Dexter ........................................ 1
Susceptibility to Rheumatic Fever. Milton Markowitz ............... 3

SPECIAL ARTICLES:
Correlation of Myocardial Ultrastructure and Function. Edmund H. Sonnenblick ........................................ 29
Patterns of Anomalous Pulmonary Venous Drainage. H. A. Snellen, H. C. van Ingen, and E. Ch. M. Hoefsmit .................. 45

ORIGINAL ARTICLES:
Atrial Reciprocal Rhythm and Reciprocating Tachycardia in Wolff-Parkinson-White Syndrome. J. Roelandt and Luc G. Van der Hauwaert ........................................ 64
Disturbances in Atrial Rhythm and Conduction Following the Surgical Creation of an Atrial Septal Defect by the Blalock-Hanlon Technique. Sandra D. Hamilton, Thomas D. Bartley, Robert H. Miller, Gerold L. Schiebler, and Henry J. L. Marriott .......................... 73
Endocardial Electrograms from Pacemaker Catheters. Alvin J. Gordon, Maria Celeste Vagueiro, and S. Serge Barold ......................... 82
Anuloplasty in Children and Young Adolescents with Severe Rheumatic Mitral Insufficiency. Harold H. Kloth, George E. Reed, David A. Tice, Eugenie F. Doyle, Brian Kiely, and Mario Spagnuolo ............. 103
Anomalous Origin of the Left Coronary Artery from the Pulmonary Artery: Surgical Treatment by Ostial Occlusion Through Pulmonary Arteriotomy. M. D. Flamm, Edward B. Stinson, Herbert N. Hultgren, Norman E. Shumway, and E. W. Hancock ........................................ 113
Congenital Aneurysm (Diverticulum) of the Right Atrium: Clinical Manifestations and Results of Operative Treatment. Andrew G. Morrow and Douglas M. Behrendt ..................... 124

(Continued)
CONTENTS OF VOLUME XXXVIII

Effects of Acetylcholine on Regional Pulmonary Blood Flow in Patients with Mitral Stenosis. Jon B. Glazier, Colin T. Dollery, and John M. B. Hughes .......................... 136

Atrioventricular Pressure Half-Time: Measure of Mitral Valve Orifice Area. Albert J. Libanoff and Simon Rodbard ........................................... 144

Systemic Vasoconstrictor and Renal Vasodilator Effects of PLV-2 (Octapressin) in Man. Jay N. Cohn, Felix E. Tristani, and Ibrahim M. Khatri ...................................... 151

Effect of Acute Intravenous Administration of Isoproterenol on Cardiorenal Hemodynamics in Man. Robert Rosenblum, Walter D. Berkowitz, and Diana Lawson ..................... 158

Studies on Coumarin Anticoagulant Drugs: Initiation of Warfarin Therapy Without a Loading Dose. Robert A. O'Reilly and Paul M. Aggeler ........................................... 169

Analysis of T-Wave Abnormalities Associated with Myocardial Infarction Using a Theoretic Model. William J. Mandel, Mary Jo Burgess, John Neville, Jr., and J. A. Abildskov ........................................ 178

Correlation of Vectorcardiogram and Electrocardiogram with Coronary Arteriogram. Gerald B. Lee, William J. Wilson, Kurt Amplatz, and Naip Tuna ........................................ 189

Intramural and Pericapillary Distribution of Lipids in Gingival Tissue of Patients with Carbohydrate-Induced Hyperglyceridemia. John L. Cornog, Jr., William T. Fitts, Jr., and Peter T. Kuo ...................... 201

BOOKS RECEIVED ...................................................................................................... 209

BOOK REVIEWS ........................................................................................................ 211

NEWS FROM THE AMERICAN HEART ASSOCIATION ........................................ 214

No. 2 (August)

EDITORIALS:
Capacity for Exercise After Denervation of the Heart. David E. Donald ........................................... 225

Prevention of Coronary Heart Disease: Official Recommendations from Scandinavia. Ancel Keys ................................................................. 227

ORIGINAL ARTICLES:
Effect of the Thyroid State on Myocardial Contractility and Ventricular Ejection Rate in Man. Morteza Amidi, Donald F. Leon, William J. deGroot, Frank W. Kroetz, and James J. Leonard ............. 229

Left Ventricular Hemodynamics in Exercise-Induced Angina Pectoris. Leslie Wiener, Edward M. Dwyer, Jr., and J. William Cox ............................................................................. 240

Effects of Beta-Adrenergic Blockade (Propranolol) on Left Ventricular Hemodynamics and the Electrocardiogram During Exercise-Induced Angina Pectoris. Edward M. Dwyer, Jr., Leslie Wiener, and J. William Cox .............................................. 250

**EDITORIALS:**

What is the Taussig-Bing Malformation? Richard Van Praagh 445

(Continued)
CONTENTS OF VOLUME XXXVIII

Hyperviscosity Syndromes. Ralph C. Williams, Jr. .................. 450

ORIGINAL ARTICLES:
Transposition of the Great Arteries: Results of Palliation by Balloon
Atrioseptostomy in Thirty-one Infants. William J. Rashkind and
William W. Miller ........................................... 453

Ascending Aorta-Right Pulmonary Artery Anastomosis: Clinical Ex-
perience with Thirty-five Patients with Cyanotic Congenital Heart
Disease. J. A. Waldhausen, S. Friedman, G. F. O. Tyers, W. J. Rash-
kind, E. Petry, and W. W. Miller .................................. 463

Spinnaker Formation of Sinus Venosus Valve: Case Report of a Fatal
Anomaly in a Ten-Year-Old Boy. Ronald N. Jones and Nelson R.
Niles ................................................................. 468

Supraventricular Tachycardia with Left Aberrant Conduction due to
Retrograde Invasion into the Left Bundle Branch. H. J. J. Wellens
and D. Durrer ....................................................... 474

Labile Variations of Intraventricular Conduction Unrelated to Rate
Changes. Alden S. Gooch and Richard S. Crow .......................... 480

An Attempt at the Assessment of Myocardial Contractility from
 Phonocardiographically Measured Time Components of Ventricu-
lar Contraction in Patients with Prosthetic Aortic Valves: Asyn-
chronous Activation as a Cause of Diminished Velocity of Contra-
tion. W. Beck and V. Schrire ....................................... 489

Hemolytic Anemia Due to Progressive Enlargement of Silastic Ball
Component of Aortic Prosthesis. Mario C. Garcia, Albert M. Clarysse,
Carl S. Alexander, Yoshio Sako, and William R. Swaim ............. 505

Cardiac Surgery in Bacterial Endocarditis. William B. Stason, Roman
W. DeSanctis, Arnold N. Weinberg, and W. Gerald Austen ........ 514

Vocational and Emotional Status of 263 Patients After Heart Sur-
gery. P. H. Blachly and B. J. Blachly ................................ 524

Relationship of Stroke to Other Cardiovascular Disease. Gary D.
Friedman, Donald B. Loveland, and S. Paul Ehrlich, Jr. ............. 533

Guanethidine-Resistant Hypertension. G. Sandler, A. W. D. Leishman,
and P. M. Humberstone ........................................... 542

Myocardial Infarction After Normal Responses to Maximal Exercise.
Robert A. Bruce, Tom R. Hornsten, and John R. Blackmon ........ 552

Diminished Glucose Tolerance and Immunoreactive Insulin Response
in Patients with Nonischemic Cardiac Disease. Philip O. Ettinger,
Henry A. Oldewurtel, Allen B. Weisse, and Timothy J. Regan .... 559

Abnormalities of the Digital Vasculature as Related to Ulceration
and Gangrene. Margaret C. Conrad .................................. 568

Uremic Pericarditis: Clinical Features and Management. George L.
Bailey, Constantine L. Hampers, Edward B. Hager, and John P.
Merrill ................................................................. 582

Decreased Noradrenaline (Norepinephrine) Synthesis in Neurogenic
Orthostatic Hypotension. McC. Goodall, W. R. Harlan, Jr., and
Harold Alton ......................................................... 592

(Continued)
SPECIAL ARTICLE:
Multifactorial Inheritance Hypothesis for the Etiology of Congenital Heart Diseases: The Genetic-Environmental Interaction. James J. Nora ........................ 604

BOOK REVIEWS ........................................................................ 618

NEWS FROM THE AMERICAN HEART ASSOCIATION ... 619

No. 4 (October)

EDITORIAL: Oral Contraceptives, Pregnancy, and the Veins. J. Edwin Wood 627

ORIGINAL ARTICLES:
Augmented Sympathetic Neurotransmitter Activity in the Peripheral Vascular Bed of Patients with Congestive Heart Failure and Cardiac Norepinephrine Depletion. Richard S. Kramer, Dean T. Mason, and Eugene Braunwald ........................ 629

Homograft Replacement of the Mitral Valve. Ralph E. Gianelly, William W. Angell, Edward Stinson, Norman E. Shumway, and Donald C. Harrison 664

Acute Myocardial Infarction Secondary to Thromboembolism from a Fractured Prosthetic Aortic Valve. Fredarick L. Gobel, Henry M. Hawkins, Russell Hanson, and Yang Wang 672

Computer Quantitation of the ST-Segment Response during Maximal Treadmill Exercise: Clinical Correlation. Paul L. McHenry, Darwell E. Stowe, and Malcolm C. Lancaster 691

Incomplete Left Bundle-Branch Block: A Definite Electrocardiographic Entity. S. Serge Barold, Joseph W. Linhart, Frank J. Hildner, Onkar S. Narula, and Philip Samet 702

Controlled Heart Rate by Atrial Pacing in Angina Pectoris: A Determinant of Electrocardiographic S-T Depression. Sun Hing Lau, Stafford I. Cohen, Emanuel Stein, Jacob I. Haft, Michael J. Kinney, Melvin W. Young, Richard H. Helfant, and Anthony N. Damato 711

Study of the Cardiac Arrhythmias by the Ultrasonic Doppler Method. Samuel Bellet, and John Kostis 721

(Continued)
CONTENTS OF VOLUME XXXVIII

Primary Subclavian-Axillary Vein Thrombosis. Neil W. Swinton, Jr., Joseph W. Edgett, Jr., and Robert J. Hall 737

The Billowing Mitral Valve Leaflet: Report on Fourteen Patients. Neville Bittar, and Julio A. Sosa 763

Hypolipidemic Effect of Polyvinylpyrrolidone in Man. Shafeek S. Sanbar, and Guido Smet 771

Experimental Myocardial Infarction in Dogs: Description of a Closed Chest Technique. Fred K. Nakhjavan, Hector Shedrovilzky, and Harry Goldberg 777

Long-Term Physical Training and Cardiovascular Dynamics in Middle-Aged Men. John S. Hanson, Burton S. Tabakin, Arthur M. Levy, and William Nedde 783

Autoregulation of Cerebral Blood Flow: Studies During Drug-Induced Hypertension in Normal Subjects and in Patients with Cerebral Vascular Diseases. Alessandro Agnoli, Cesare Fieschi, Luigi Bozzao, Noe Battistini, and Massimiliano Prencipe 800

BOOK REVIEWS 813

NEWS FROM THE AMERICAN HEART ASSOCIATION 816

No. 5 (November)

EDITORIALS:

Atrioventricular Block, Type II (Mobitz)—Its Nature and Clinical Significance. Richard Langendorf and Alfred Pick 819

The Love-at-First-Sight Effect in Research. Hubert V. Pipberger, Marvin A. Schneiderman, and Jack D. Klingeman 822

ORIGINAL ARTICLES:

Characterization of Left Heart Volumes and Mass in Normal Children and in Infants with Intrinsic Myocardial Disease. Thomas P. Graham, Jr., M. M. Jarmakani, Ramon V. Canent, Jr., M. Paul Capp, and Madison S. Spach 826

Muscular Subaortic Stenosis: Prevention of Outflow Obstruction with Propranolol. M. D. Flamm, Donald C. Harrison, and E. W. Hancock 846

Circulatory Control in Idiopathic Orthostatic Hypotension (Shy-Dra- ger Syndrome). James T. Botticelli, Michael H. Keelan, Jr., Francis P. Rosenbaum, and Ramon L. Lange 870

(Continued)
**CONTENTS OF VOLUME XXXVIII**

**The Mechanism of Synchronization in Isorhythmic A-V Dissociation: Some Observations on the Morphology and Polarity of the P Wave During Retrograde Capture of the Atria.** Albert L. Waldo, Kari J. Vitikainen, Paul D. Harris, James R. Malm, and Brian F. Hoffman  
880

**Variations of Aberrant Ventricular Conduction in Man: Evidence of Isolated and Combined Block Within the Specialized Conduction System; an Electrocardiographic and Vectorcardiographic Study.** Stafford I. Cohen, Sun H. Lau, Emanuel Stein, Melvin W. Young, and Anthony N. Damato  
899

**Genesis of Body Surface Potentials in Varying Types of Right Ventricular Hypertrophy.** Sarah D. Blumenschein, Madison S. Spach, John P. Boineau, Roger C. Barr, Thomas M. Gallie, Andrew G. Wallace, and Paul A. Ebert  
917

**The Electrocardiogram in Duchenne Progressive Muscular Dystrophy.** Cecylia Slucka  
933

**Measurement of Central Venous Oxygen Saturation in Patients with Myocardial Infarction.** Robert H. Goldman, Martin Klughaupt, Thomas Metcalf, Alfred P. Spivack, and Donald C. Harrison  
941

947

**Renal Excretion of Sodium During Oral Water Administration in Patients with Systemic Hypertension.** Robert A. Metzger, Liliana S. Vaamonde, Carlos A. Vaamonde, and Solomon Papper  
955

**Metabolic Studies on Hypertensive Patients with Suppressed Plasma Renin Activity Not Due to Hyperaldosteronism.** Oscar M. Helmer and Walter E. Judson  
965

**Morphological Studies in Tricuspid Atresia.** Barbara Guller and Jack L. Titus  
977

**The Conduction System in Acute Myocardial Infarction Complicated by Heart Block.** Richard Sutton and Michael Davies  
987

**Observations on Heart Block During Continuous Electrocardiographic Monitoring in Myocardial Infarction.** Richard J. Stock and Daniel L. Macken  
993

**BOOK REVIEWS**  
1006

**NEWS FROM THE AMERICAN HEART ASSOCIATION**  
1008

**No. 6 (December)**

**EDITORIALS:**

**Thomas Bevill Peacock's Library.** P. J. Bishop  
1011

**Cardiotoxic Effects of Phenothiazine and Related Drugs.** Carl S. Alexander  
1014

**The Effects of Rest in Bed and of Exercise on Cardiovascular Function.** Henry L. Taylor  
(Continued)  
1016
CONTENTS OF VOLUME XXXVIII

ORIGINAL ARTICLES:

Successful Surgical Interruption of the Bundle of Kent in a Patient with Wolff-Parkinson-White Syndrome. Frederick R. Cobb, Sarah D. Blumenschein, Will C. Sealy, John P. Boineau, Galen S. Wagner, and Andrew C. Wallace .......................... 1018

Control of Recurrent Tachycardia of Wolff-Parkinson-White Syndrome by Surgical Ligation of the A-V Bundle. Leonard S. Dreifus, Henry Nichols, Dryden Morse, Yoshio Watanabe, and Raymond Truex 1030

Paradoxical Use of a Demand Pacemaker in Treatment of Supraventricular Tachycardia Due to the Wolff-Parkinson-White Syndrome: Observation on Termination of Reciprocal Rhythm. Gerald F. Ryan, Robert M. Easley, Jr., Lawrence I. Zaroff, and Sidney Goldstein .......... 1037

Bradycardia-Dependent Bundle-Branch Block: A Critique and Proposed Criteria. R. A. Massumi ................................................. 1066

Alterations in Cardiac Function Immediately Following Electrical Conversion of Atrial Fibrillation to Normal Sinus Rhythm. William Shapiro and Garner Klein ........................................ 1074

Dynamic Reactions Produced by Deflating a Blood Pressure Cuff. Edward D. Freis and R. Francis Sappington, Jr. .................. 1085

Influence of Angiotensin on the Hemodynamic Response to Exercise in Normotensive Subjects. Rune Sannerstedt and Ed Varnauskas 1097

Physiological Analysis of Middle-Aged and Old Former Athletes: Comparison with Still Active Athletes of the Same Ages. Bengt Saltin and Gunnar Grimby ........................................... 1104

Factors Influencing the Restoration of Blood Flow Following Pulmonary Embolization as Determined by Angiography and Scanning. Marvin L. Murphy and Robert T. Bulloch .................... 1116

The Pulmonary Pressures in Pulmonary Venous Obstruction. Merritt C. Warren, Philip M. Benaron, and Norman J. Sissman ................. 1127

Endocardial Fibrosis: Detection by Cardiac Pacing. James G. Clark, H. Gunther Bucheleres, and Richard A. Carleton ....................... 1136

Cigarette Smoking: Its Relationship to Coronary Heart Disease and Related Risk Factors in the Western Collaborative Group Study. C. David Jenkins, Ray H. Rosenman, and Stephen J. Zyzanski .......... 1140

Interrelationships of Hyperinsulinism and Hypertriglyceridemia in Young Patients with Coronary Heart Disease. Manuel Tzagournis, Ross Chiles, Joseph M. Ryan, and Thomas G. Skillman ...................... 1156

SPECIAL ARTICLE:

Atherosclerosis: A Personal Overview. Irvine H. Page ......................... 1164

BOOKS RECEIVED .......................................................... 1173

BOOK REVIEWS ................................................................ 1175
