CIRCULATION
VOLUME XXXIX
January-June 1969

No. 1 (January)

EDITORIALS:
The Syndrome of Apical Systolic Click, Late Systolic Murmur, and Abnormal T Waves. Mary Allen Engle ................. 1
Angiotensin and the Stouffer Prize. Irvine H. Page and James W. McCubbin ................ 3

ORIGINAL ARTICLES:
Immunological Tolerance in Organ Transplantation: Fair Prospect or Fanciful Folly? G. J. V. Nossal ............... 5
Rapid Sequential Visualization of the Heart and Great Vessels in Man Using the Wide-Field Anger Scintillation Camera: Radioisotope-Angiography Following the Injection of Technetium-99m. Dean T. Mason, William L. Ashburn, John C. Harbert, Lawrence Sanford Cohen, and Eugene Braunwald ........ 19
Hemodynamic Effects of Glucagon in Patients with Heart Disease. John F. Williams, Jr., Richard H. Childress, Jerold N. Chip, and John F. Border ................. 38
Diminished Baroreflex Sensitivity in High Blood Pressure. J. David Bristow, A. John Honour, George W. Pickering, Peter Sleight, and Harley S. Smyth ............ 48
Hemodynamic Effects of Hypovolemia in Normal Subjects and Patients with Congestive Heart Failure. R. H. Murray, L. J. Thompson, J. A. Bowers, E. F. Steinmetz, and C. D. Albright ............ 55
Immediate Hemodynamic Response of Patients with Atrioventricular Block and Cardiac Failure to Transvenous Pacing. Fredarick L. Gobel, Jose R. Medina, Clarence A. Guenter, and Yang Wang .......... 64
Computer Diagnosis of Biventricular Hypertrophy from the Orthogonal Electrocardiogram. Raul Gamboa, Jack D. Klingeman, and Hubert V. Pipberger ...................... 72

(Continued)
CONTENTS OF VOLUME XXXIX

Thermistor Recording of Forehead Skin Temperature as an Index of Carotid Artery Disease. Margaret C. Conrad, James F. Toole, and Richard Janeway ........................................ 126

Temperature of the Great Toe as an Indication of the Severity of Shock. Henri R. Joly and Max Harry Weil ........................................ 131

A Study of Hemodynamics and Coronary Blood Flow in Man with Coronary Artery Disease. George G. Rowe, James H. Thomsen, Roger R. Stenhund, David H. McKenna, Salvador Sialer, and Robert J. Corliss ........................................ 139

NEWS FROM THE AMERICAN HEART ASSOCIATION ........................................ 149

No. 2 (February)

EDITORIAL:

The Urokinase-Pulmonary Embolism Trial. Peter N. Walsh, James M. Stengle, and Sol Sherry ........................................ 153

ORIGINAL ARTICLES:

Effects of Propranolol and Isosorbide Dinitrate on Exercise Performance and Adrenergic Activity in Patients with Angina Pectoris. Dennis J. Battock, Hector Alvarez, and Charles A. Chidsey ........................................ 157

Type II Hyperlipoproteinemia in Mother and Twins. Gerald B. Lee, Gregory A. Culley, Maren J. Lawson, Leon L. Adcock, and William Krivit ........................................ 183

Effect of Ventricular Extrasystoles on Closure of Mitral Valve. Russell A. Vandenbergh, John C. P. Williams, Ralph E. Sturm, and Earl H. Wood ........................................ 197

(Continued)
CONTENTS OF VOLUME XXXIX

Pharmacodynamic Effects of a New Antihypertensive Drug, Catapres (ST-155). Gaddo Onesti, Allan B. Schwartz, Kwan E. Kim, Charles Swartz, and Albert N. Brest ......................... 219

Spatial Parameters and Shape Factors of the Normal Atrial Vectorcardiogram and Its Scalar Components. Daniel A. Brody, John W. Cox, Ann B. McEachran, Hannelore H. Giles, and Victor J. Ruesta ........................................ 229

Analysis of the Orthogonal Electrocardiogram and Vectorcardiogram in Ventricular Conduction Defects With and Without Myocardial Infarction. Mervin J. Goldman and Hubert V. Pipberger ........................................ 243

Congenital Heart Disease in Taiwan, Republic of China. Mary K. M. Shann ........................................ 251

Effect of Reserpine in Raynaud’s Phenomenon. Hermes A. Kontos and Albert J. Wasserman ........................................ 259

BOOK REVIEWS ........................................ 267

NEWS FROM THE AMERICAN HEART ASSOCIATION ............ 271

No. 3 (March)

EDITORIALS:
Mobile Coronary Services. Knight Steel, James K. Cooper, and Samuel M. Fox, III ........................................ 279

Whither Cardiac Work Evaluation Units? George A. Hellmuth ........................................ 283

ORIGINAL ARTICLES:

Nonrheumatic Mitral Insufficiency: Determination of Operability and Prognosis. Martin Klughaupt, M. D. Flamm, E. William Hancock, and Donald C. Harrison ........................................ 307

The Hemodynamic Results of Instrumental and Digital Valvotomy in Patients with Mitral Stenosis. F. L. Gobel, D. J. Andrew, J. M. Witherspoon, R. C. Lillehei, A. Castaneda, and Yang Wang ........................................ 317

The Familial Occurrence of the Syndrome of Mid-Late Systolic Click and Late Systolic Murmur. William E. Shell, Joseph A. Walton, Mary E. Clifford, and Park W. Willis, III ........................................ 327

The Relationship of Increased Left Atrial Volume and Pressure to Abnormal P Waves on the Electrocardiogram. Irwin Kasser and J. Ward Kennedy ........................................ 339

Increased Sympathetic Nerve Activity Following Resection of Coarctation of the Thoracic Aorta. McC. Goodall and W. C. Sealy ........................................ 345

(Continued)

A Hemodynamic Comparison of Dopamine and Isoproterenol in Patients in Shock. Robert C. Talley, Leon I. Goldberg, Charles E. Johnson, and John L. McNay

Sequential Cardiorespiratory Events During and After Dextran-40 Infusion in Normal and Shock Patients. Patricia A. Mohr, David O. Monson, Cynthia Owczarski, and William C. Shoemaker

Measurements and a Simplified Interpretation of Magnetocardiograms from Humans. David Cohen and Louis Chandler

REVIEW ARTICLE:
Overweight and Hypertension: A Review. Benjamin N. Chiang, Lawrence V. Perlman, and Frederick H. Epstein

BOOK REVIEWS

NEWS FROM THE AMERICAN HEART ASSOCIATION

No. 4 (April)

EDITORIALS:
How Many? Or One Good Question Deserves Another. Richard D. Remington

ORIGINAL ARTICLES:

Digoxin Metabolism in the Elderly. Gordon A. Ewy, Geeta G. Kapadia, Linda Yao, Muriel Lullin, and Frank I. Marcus

Dynamic Changes in Left Ventricular Free Wall Thickness in the Human Heart. Leslie M. Eber, Harvey M. Greenberg, John M. Cooke, and Richard Gorlin

Sound-Pressure Correlates of the Aortic Ejection Sound: An Intracardiac Sound Study. Arthur V. Whittaker, James A. Shaver, Samuel Gray, III, and James J. Leonard

The Effect of Intracardial Pacemaker Therapy on Cerebral Blood Flow and Electroencephalogram in Patients with Complete Atrioventricular Block. I. A. Sulg, S. Cronqvist, H. Schüller, and D. H. Ingvar

The Hemodynamic Response to Chronic Anemia. Martin Duke and Walter H. Abelmamn

(Continued)

BOOK REVIEWS ........................................................................ 557

NEWS FROM THE AMERICAN HEART ASSOCIATION ............ 559

No. 5 (May)

ORIGINAL ARTICLES:
Pathology of the Conduction System in Cardiac Rejection. Charles P. Bieber, Edward B. Stinson, and Norman E. Shumway .................. 567

Aorta to Right Pulmonary Artery Anastomosis (Waterston’s Operation) for Cyanotic Heart Disease. Jane Somerville, M. Yacoub, D. N. Ross, and K. Ross .................................................. 593

Subpulmonic Obstruction in Complete (d) Transposition Produced by Redundant Tricuspid Tissue. Thomas A. Riemenschneider, Stanley J. Goldberg, Herbert D. Ruttenberg, and Michael T. Gyepes 603

Possible X-Linked Congenital Heart Disease. Patricia L. Monteleone and Leonard F. Fagan .......................................................... 611

Diagnosis of Atrial Tumors by Ultrasound. Stanley B. Wolfe, Richard L. Popp, and Harvey Feigenbaum ........................................... 615

Hemodynamic Effects of Nitroglycerin, Propranolol, and Their Combination in Coronary Heart Disease. Leslie Wiener, Edward M. Dwyer, Jr., and J. William Cox ............................................ 623

Impaired Maximal Exercise Performance with Hypertensive Cardiovascular Disease. Hee Ong Wong, Irwin S. Kasser, and Robert A. Bruce ................................................................. 633

Effects of Breathing 10 Per Cent Carbon Dioxide on the Pulmonary Circulation of Human Subjects. K. H. Kilburn, T. Asmundsson, R. C. Britt, and R. Cardon .................................................. 639

The Dicrotic Arterial Pulse. Gordon A. Ewy, Jorge C. Rios, and Frank I. Marcus ................................................................. 655

(Continued)
CONTENTS OF VOLUME XXXIX

Assessment of Pulmonary Photoscanning and Angiography in Experimental Pulmonary Embolism. Kenneth M. Moser, Paul Harsanyi, George Rius-Garriga, Michel Guisan, Glen A. Landis, and August Miale, Jr. ........................................... 663

Long-Term Effects of Clofibrate (Atromid-S) on Serum Lipids in Man. Donald B. Hunninghake, Donald R. Tucker, and Daniel L. Azarnoff .................................................. 675

Salivary Sodium-Potassium Ratio and Plasma Renin Activity in Hypertension. E. Victor Adlin, Bertram J. Channick, and Allan D. Marks .................................................. 685

Hypertension and Cerebral Atherosclerosis. A. B. Baker, Joseph A. Resch, and Ruth B. Loewenson .................................................. 701

BOOKS RECEIVED .................................................. 711

NEWS FROM THE AMERICAN HEART ASSOCIATION .................................................. 713

No. 6 (June)

HISTORICAL NOTE:
Robert James Graves, Physician, Educator, Scientist. Richard W. Whitehead .................................................. 719

ORIGINAL ARTICLES:

Reversible Cardiac Failure During Angina Pectoris: Hemodynamic Effects of Atrial Pacing in Coronary Artery Disease. John O. Parker, J. Rodney Ledwich, Roxroy O. West, and Robert B. Case .................................................. 745

Comparative Effects of Aging and Coronary Heart Disease on Submaximal and Maximal Exercise. Irwin S. Kasser and Robert A. Bruce .................................................. 759

Cardiovascular Function in Children with Severe Anemia. Gerd J. A. Cropp .................................................. 775

Hemodynamic Changes During Sleep in Hypertensive Patients. Ibrahim M. Khatri and Edward D. Freis .................................................. 785

Cardioversion of Supraventricular Tachycardias. Carlos Vassaux and Bernard Lown .................................................. 791

Alternate Patterns of Premature Ventricular Excitation During Induced Atrial Bigeminy. Stafford I. Cohen, Sun H. Lau, Benjamin J. Scherlag, and Anthony N. Damato ........................................... 819

(Continued)
Regional Ventilation in the Differential Diagnosis of Pulmonary Embolism. Jose R. Medina, Philippe L'Heureux, James P. Lillehei, and Merle K. Loken ................................................................. 831

Large Anomalous Fibrous Sac in the Right Side of the Heart. R. D. Sutherland, Paul Stanger, A. R. W. Climie, Michael H. F. Quinn, and Jesse E. Edwards ................................................................. 837

Congenital Aneurysm of the Pulmonary Sinus of Valsalva. David L. Page and Gary M. Williams ................................................................. 841

Sound Spectrographic Diagnosis of Aortic Ball Variance. John C. Hylen, Frank E. Kloster, Rodney H. Herr, Albert Starr, and Herbert E. Griswold ................................................................. 849

Scalar Amplitude Measurements of Data Recorded with Cube and Frank Leads from Normal Children. E. Raymond Borun, Samuel O. Sapin, and Stanley J. Goldberg ................................................................. 859

BOOK REVIEWS ................................................................. 871

NEWS FROM THE AMERICAN HEART ASSOCIATION ................................................................. 875
