CIRCULATION
VOLUME XLIII
January-June 1971

No. 1 (January)

Editorials:
Retirement of Howard Burchell. Jesse Edwards .......................... 1
Editorial Perspective. Charles K. Friedberg .............................. 3
On Sudden Death. Oglesby Paul and Michael Schatz .................... 7
Salvage of Myocardium in Acute Ischemia. William B. Hood, Jr. ...... 11

ORIGINAL ARTICLES:
Site of Reentry in Paroxysmal Supraventricular Tachycardia in Man. Bruce N. Goldreyer and J. Thomas Bigger, Jr. .................... 15
Syndrome of Hypoplasia of the Right Lung and Dextroposition of the Heart: "Scimitar Sign" with Normal Pulmonary Venous Drainage. Jacob R. Morgan and Alan D. Forker .................. 27
Longevity of Parents and Grandparents in Relation to Coronary Heart Disease and Associated Variables. E. Cuyler Hammond, Lawrence Garfinkel, and Herbert Seidman ............... 31
External Isovolumic Contraction Times and Left Ventricular Ejection Time/External Isovolumic Contraction Time Ratios at Rest and After Exercise in Coronary Heart Disease. Wilbert S. Aronow, Allen F. Bowyer, and Marvin A. Kaplan .................. 59
Factors Influencing Infarct Size Following Experimental Coronary Artery Occlusion. Peter R. Maroko, John K. Kjekshus, Burton E. Sobel, Tan Watanabe, James W. Covell, John Ross, Jr., and Eugene Braunwald .................. 67
Spontaneous Closure of Physiologically Advantageous Ventricular Septal Defects. P. Syamasundar Rao and Norman J. Sissman ............. 83
Serial Hemodynamic Observations in Asymptomatic Children with Valvar Aortic Stenosis. William F. Friedman, James Modlinger, and Jacob R. Morgan ............................... 91
Electrical Stimulation of the Heart in Patients with Wolff-Parkinson-White Syndrome, Type A. Hein J. J. Wellens, Reinier M. Schuilenberg, and Dirk Durrer .................. 99
Right Ventricular Anomalous Muscle Bundle: Clinical and Laboratory Presentation and Natural History. J. W. Forster and J. D. Humphries .................. 115

(Continued)
CONTENTS OF VOLUME XLIII

Echocardiographic Features of Atrial Septal Defect. Morton A. Diamond, James C. Dillon, Charles L. Haine, Sonia Chang, and Harvey Feigenbaum .................................................. 129

Epinephrine Infusion in Man: Standardization, Normal Response, and Abnormal Response in Idiopathic Hypertrophic Subaortic Stenosis. Stephen H. Salzman, Steven Wolfson, Bruce Jackson, and Elliot Scharchter .................................................. 137

Effects of Acute Digitalization on the Pulmonary Blood Volume in Patients with Heart Disease. Gerald W. Murphy, Bernard F. Schreiner, Jr., and Paul N. Yu .............................................. 145

Effects of Nitroglycerin on “Maximal” Oxygen Intake and Exercise Electrocardiogram in Coronary Heart Disease. Jean-Marie R. Detry and Robert A. Bruce .............................................. 155

RADIOLOGIC NOTES IN CARDIOLOGY:
Use of the Contrast Interface in Angiocardiography. Murray G. Baron .................................................. 165

BOOK REVIEWS .................................................................................................................. 169

CORRECTION .................................................................................................................. 2

NEWS FROM THE AMERICAN HEART ASSOCIATION .............................................. 37

Report of Inter-Society Commission for Heart Disease Resources: Acute Care; Inter-Relationship Among Health Facilities—Future Role of Modern Communication and Transportation; Electronic Equipment in Critical Care Areas: Status of Devices Currently in Use; Resources for the Optimal Acute Care of Patients with Congenital Heart Disease ................................................................. A-97

No. 2 (February)

EDITORIALS:
On the Difference Between the Heart’s Output and Its Contractile State. Eugene Braunwald .................................................. 171

Direct Revascularization Procedures in the Management of Myocardial Ischemia. David C. Sabiston .................................................. 175

Measurement of Serum Digitalis Glycosides: Clinical Implications. Thomas W. Smith .................................................. 179

ORIGINAL ARTICLES:
Subacute Effusive-Constrictive Pericarditis. E. W. Hancock .................................................. 183

Bundle Branch and Ventricular Activation in Man: A Study Utilizing Catheter Recordings of Left and Right Bundle Branch Potentials. Kenneth M. Rosen, Shahbudin H. Rahimtoola, M. Ziad Sinno, and Rolf M. Gunnar .................................................. 193

Interrelationships of Hepatic Blood Flow, Cardiac Output, and Blood Levels of Lidocaine in Man. Robert E. Stenson, Robert T. Constantino, and Donald C. Harrison .................................................. 205

(Continued)
Pathophysiology of the Pulmonary Circulation in Emphysema Associated with Alpha1 Antitrypsin Deficiency. Paul D. Stein, Jerry D. Leu, Martin H. Welch, and Clarence A. Guenter ...................... 227

Analysis of Left Ventricular Function by Atrial Pacing. John O. Parker, Fareeduddin Khaja, and Robert B. Case ...................... 241

Resting and Postexercise Phonocardiogram and Electrocardiogram in Patients with Angina Pectoris and in Normal Subjects. Wilbert S. Aronow, Ronald R. Uyeyama, John Cassidy, and Joseph Nebolomon 273

Left Bundle Branch Block: Etiologic, Hemodynamic, and Ventriculographic Considerations. Jacob I. Haft, Michael V. Herman, and Richard Gorlin ...................... 279

Abnormal Responses of the Systolic Time Intervals to Exercise in Patients with Angina Pectoris. Jean M. Pouget, Willard S. Harris, Bart R. Mayron, and John P. Naughton ...................... 289

Mode of Action of Chlorophenoxyisobutyric Acid on Cholesterol Metabolism in Man. L. B. Horlick, B. J. Kudchodkar, and H. S. Sodhi 299

RADIOLOGIC NOTES IN CARDIOLOGY:

Obscuration of the Aortic Knob in Coarctation of the Aorta. Murray G. Baron ...................... 311

LETTERS TO THE EDITOR:

Modification of Infarct Size. John P. Boineau ...................... 317

Paroxysmal Supraventricular Tachycardia. R. Langendorf ...................... 318

Valvular Aortic Stenosis. James H. Moller ...................... 319

NEWS FROM THE AMERICAN HEART ASSOCIATION

Report of Inter-Society Commission for Heart Disease Resources: Optimal Radiologic Facilities for Examination of the Chest and the Cardiovascular System ...................... A-135

No. 3 (March)

EDITORIAL:

Pulmonary Atrial Banding in Babies with Large Ventricular Septal Defect. John W. Kirklin ...................... 321

ORIGINAL ARTICLES:

Congenital Heart Disease in 56,109 Births: Incidence and Natural History. S. C. Mitchell, S. B. Korones, and H. W. Berendes ...................... 323

The Austin Flint Murmur and the α Wave of the Apexcardiogram in Aortic Regurgitation. Elizabeth Parker, Ernest Craige, and W. P. Hood, Jr. ...................... 349

(Continued)
CONTENTS OF VOLUME XLIII

Use of Aortic Valve Homografts for Aortic Valve Replacement. Robert B. Wallace, Emilio R. Giuliani, and Jack L. Titus 365

Relationship Between Cardiac Output and Peripheral Resistance in Borderline Hypertension. Stevo Julius, Arturo V. Pascual, Rune Sannerstedt, and Charles Mitchell 382

Banding of the Pulmonary Artery: Results in 111 Children. Carl E. Hunt, Gustave Formanek, Myron A. Levine, Aldo Castaneda, and James H. Moller 395

Atrial Pacing and Exercise in the Evaluation of Patients with Angina Pectoris. R. C. Bahler and C. A. Macleod 407

Significance of the Diagnostic Q Wave of Myocardial Infarction. Leo G. Horan, Nancy C. Flowers, and Jennifer C. Johnson 428

SPECIAL ARTICLE:
Adenyl Cyclase and Cyclic AMP: Biochemical Links in the Regulation of Myocardial Contractility. Stephen E. Epstein, Gerald S. Levey, and C. Lynn Skelton 437

RADIOLOGIC NOTES IN CARDIOLOGY:
Angiographic Differentiation Between Tetralogy of Fallot and Double-Outlet Right Ventricle: Relationship of the Mitral and Aortic Valves. Murray G. Baron 451

LETTERS TO THE EDITOR:
Wolff-Parkinson-White Syndrome. Thomas N. James 456

NEWS FROM THE AMERICAN HEART ASSOCIATION 35

Committee Report 459

Inter-Society .................................................. A-157

No. 4 (April)

EDITORIAL:
Mitral Valve Anomalies in Children. Peter Vlad 465

ORIGINAL ARTICLES:
\( V_{\text{max}} \) as an Index of Contractile State in Man. Herman L. Falsetti, Robert E. Mates, David G. Greene, and Ivan L. Bunnell 467

Left Ventricular Volumes and Ejection Fraction by Echocardiography. Joaquin F. Pombo, Bart L. Troy, and Richard O. Russell, Jr. 480

(Continued)
Electrophysiological Significance of First Degree Atrioventricular Block with Intraventricular Conduction Disturbance. Kenneth M. Rosen, Shahbudin H. Rahimtoola, Ruben Chuquimia, Henry S. Loeb, and Rolf M. Gunnar .......................................................... 491

Use of Echocardiography in Patients with Prolapsed Mitral Valve. James C. Dillon, Charles L. Haine, Sonia Chang, and Harvey Feigenbaum .................................................. 503

Exchangeable Sodium and Blood Volume in Normotensive and Hypertensive Humans on High and Low Sodium Intake. Walter J. Brown, Jr., Faith K. Brown, and Iqbal Krishan ..................................... 508

Ventricular Fibrillation: A Possible Mechanism of Sudden Death in Patients with Wolff-Parkinson-White Syndrome. Leonard S. Dreifus, Robert Haiat, Yoshio Watanabe, Jaime Arriaga, and Norman Reitman ........................................ 520

Effects of Isoproterenol on the Pulmonary Circulation in Patients with Chronic Obstructive Lung Disease. M. Irené Ferrer, Yale Enson, Margaret M. Kilcoyne, and Réjane M. Harvey .................................................. 528

Changes in the Homostatic Mechanism After Myocardial Infarction. Paul B. Goldenfarb, Mary H. Cathey, Stanley Zucker, Patricia Wilber, and James J. Corrigan, Jr. ........................................ 538

Comparison of the Vectorcardiogram with the Electrocardiogram in the Prediction of Left Ventricular Siz. Donald L. Vine, R. Newell Finchum, Harold T. Dodge, and David C. Hurst ................ 547

Isolated Tricuspid Insufficiency. Jacob R. Morgan and Alan D. Forker .......... 559

Ascending Aorta-Right Pulmonary Artery Shunt in Infants and Older Patients with Certain Types of Cyanotic Congenital Heart Disease. William F. Bernhard, Jimmy E. Jones, David Z. Friedberg, and S. Bert Litwin .................................................................. 580

In Vivo Pressure-Radius Relationships of the Pulmonary Artery in Children with Congenital Heart Disease. Jay M. M. Jarmakani, Thomas P. Graham, Jr., D. Woodrow Benson, Jr., Ramon V. Canent, Jr., and Joseph C. Greenfield, Jr. ......................... 585

Resecting and Grafting of Coronary Artery Aneurysm. Paul A. Ebert, Robert H. Peter, J. Caulie Gunnells, and David C. Sabiston, Jr. ........ 593

RADIOLOGIC NOTES IN CARDIOLOGY:
Angiocardiographic Evaluation of Valvular Insufficiency. Murray G. Baron ................................................. 599

CLINICOPATHOLOGIC CORRELATIONS:
Mitral Insufficiency Resulting from "Overshooting" of Leaflets. Jesse E. Edwards .......................................................... 606

LETTERS TO THE EDITOR:
Straddling and Displaced Atrioventricular Orifices and Valves. Jesse E. Edwards ............................................. 613

Isoproterenol and Pulmonary Circulation. Paul N. Yu .................. 613

CORRECTION .................................................................................................................. 502

NEWS FROM THE AMERICAN HEART ASSOCIATION .................. 42

Inter-Society Commission Report for Heart Disease Resources: Resources for the Acute Care of Peripheral Vascular Diseases A-161
EDITORIAL:
Congenital Complete Heart Block. Sylvia P. Griffiths

615

ORIGINAL ARTICLES:

618

629

Abnormalities of Left Ventricular Contraction Induced by Beta Adrenergic Blockade. Richard H. Helfant, Michael V. Herman, and Richard Gorlin

641

Postexercise Electrocardiogram in Patients with Abnormal Resting Electrocardiograms. Peter F. Cohn, Pantel S. Vokonas, Michael V. Herman, and Richard Gorlin

648

The Value of Monitoring Pulmonary Artery Pressure for Early Detection of Left Ventricular Failure Following Myocardial Infarction. Barry D. Rutherford, William D. McCann, and T. Paul B. O'Donovan

655

His Bundle Electrograms in Patients with Short P-R Intervals, Narrow QRS Complexes, and Paroxysmal Tachycardias. Agustin Castellanos, Jr., Cesar A. Castillo, Abdul S. Agha, and Michael Tessler

667

Essential Role of Atrioventricular Conduction Delay in the Initiation of Paroxysmal Supraventricular Tachycardia. Bruce N. Goldreyer and Anthony N. Damato

679

688

Progressive and Late Obstruction of an Aorto-Coronary Venous Bypass Graft. Claude M. Grondin, Claude Meere, Yves Castonguay, Gilles Lepage, and Pierre Grondin

698

 Interruption of the Atrioventricular Bundle with Congenital Atrioventricular Block. Maurice Lev, Hugo Cuadros, and Milton H. Paul

703

Localization and Sequence of Development of Atherosclerotic Lesions in the Carotid and Vertebral Arteries. Lars A. Solberg and Douglas A. Eggen

711

725

Absence of Elastica from Inner Half of Aorta: Multiple Dissecting Aneurysms. H. Edward MacMahon and William J. Chambers

733

Physiologic Correction of Transposition of the Great Arteries. John A. Waldhausen, William S. Pierce, C. Dick Park, William J. Rashkind, and Sidney Friedman

738

SPECIAL ARTICLE:
Diagnostic and Therapeutic Uses of Atrial Pacing. Roman W. De-Sanctis

748
CONTENTS OF VOLUME XLIII

RADIOLOGIC NOTES IN CARDIOLOGY:
Postinfarction Aneurysm of the Left Ventricle. Murray G. Baron ................................. 762

BOOK REVIEWS .......................................................................................................................... 770

LETTER TO THE EDITOR:
Significance of First Degree A-V Block. Onkar S. Narula and Philip Samet ........................................................... 772

CORRECTION ........................................................................................................................................ 775

NEWS FROM THE AMERICAN HEART ASSOCIATION ........................................................................... 777

EDITORIAL:
On Block of Something Less Than a Bundle Branch, or of Something More. Raymond D. Pruitt and Thomas B. Watt, Jr. ................................................................. 778

ORIGINAL ARTICLES:

Efficacy of Isoproterenol-Glucagon Infusion in Patients with Heart Disease. Ralph A. Polumbo, Richard F. Leighton, and Arnold M. Weissler ......................................................... 788

Radioisotopic Angiocardiography. Wide Scope of Applicability in Diagnosis and Evaluation of Therapy in Diseases of the Heart and Great Vessels. Joseph P. Kriss, Lee P. Enright, William G. Hayden, Lewis Wexler, and Norman E. Shumway ................................................................. 792

Effect of Volume Expansion on the Anginal Threshold. Fareeduddin Khaja, Vijay Sanghi, Alexander Mark, and John O. Parker ................................................................. 824

Cardiac Conduction in Patients with Symptomatic Sinus Node Disease. Kenneth M. Rosen, Henry S. Loeb, M. Ziad Simno, Shahbudin H. Rahimtoola, and Rolf M. Gunnar ................................................................. 838

Fate of Orally Administered 3H-Digoxin in Man with Special Reference to the Absorption. Björn Beermann, Kjell Hellström, and Anders Rosén ................................................................. 852

An In Vitro Model of Paroxysmal Supraventricular Tachycardia. Andrew L. Wit, Bruce N. Goldreyer, and Anthony N. Damato ................................................................. 862

Hemodynamics of Uremic Anemia. Martin S. Neff, Kwan E. Kim, Michael Persoff, Caddo Onesti, and Charles Swartz ................................................................. 876

Maximal Treadmill Stress Test Correlated with Postexercise Phonocardiogram in Normal Subjects. Wilbert S. Aronow, Nicholas P. Papageorge's, Ronald R. Uyeyama, and John Cassidy ................................................................. 884
