EDITORIALS:

Conduction and Block in the Right Bundle Branch: Real and Imagined. George K. Massing and Thomas N. James .............. 1
Regional Myocardial Blood Flow. Edward M. Dwyer, Jr. .......... 4
Radioactive Tracers and the Circulation. Henry N. Wagner, Jr. ... 8

ORIGINAL ARTICLES:

Effect of Coronary Artery Disease and Acute Myocardial Infarction on Left Ventricular Compliance in Man. George Diamond and James S. Forrester ........................................... 11
Serum Cardiac Glycoside Assay Based upon Displacement of ³H-Ouabain from Na-K ATPase. Gary Brooker and Roger W. Jelliffe ... 20
Asymmetrical Hypertrophic Cardiomyopathy Simulating Mitral Stenosis. Ralph Shabetai and Sidney Davidson ............... 37
Hemodynamic Effects of Practolol at Rest and during Exercise. Donald F. Leon, Mark E. Thompson, James A. Shaver, and Robert H. McDonald, Jr. .................................................. 46
Nuclear Angiocardiography in the Diagnosis of Congenital Heart Disease in Infants. Hadwig Wesselhoeft, Peter J. Hurley, Henry N. Wagner, Jr., and Richard D. Rowe ......................... 77
Glucose Extraction by the Human Myocardium during Pacing Stress. Albert S. Most, Richard Gorlin, and J. Stuart Soeldner ............ 92
Effects of Levodopa on Systolic Preejection Period, Blood Pressure, and Heart Rate during Acute and Chronic Treatment of Parkinson's Disease. Thomas L. Whitsett and Leon I. Goldberg .......... 97
Effects of Ouabain on Myocardial Potassium and Sodium Balance in Man. F. James Brennan, John L. McCans, Miguel A. Chiong, and John O. Parker ......................................................... 107

(Continued)
CONTENTS OF VOLUME XLV

Significance of the Sinus-Node Recovery time. Onkar S. Narula, Philip Samet, and Roger P. Javier .................................................. 140

Surgical Treatment of Partial Anomalous Pulmonary Venous Drainage: A Long-Term Follow-up Study. B. Friedli, R. Guerin, A. Davignon, J. C. Fouron, and P. Stanley .................................................. 159

RADIOLOGIC NOTES IN CARDIOLOGY:
Fleischner Lines and Pulmonary Emboli. Murray G. Baron .................................................. 171

SYMPOSIUM: Myocardial Infarction 1972 (Part 1)
Introduction. Charles K. Friedberg .................................................. 179
Prehospital Care of Acute Myocardial Infarction. Paul N. Yu .................................................. 189
Sudden Death Related to Myocardial Infarction. Thomas N. James .................................................. 205
Coronary Arteries in Fatal Acute Myocardial Infarction. William C. Roberts .................................................. 215
Left Ventricular Function in Acute Myocardial Infarction and its Clinical Significance. Charles E. Rackley and Richard O. Russell, Jr. .................................................. 231

BOOK REVIEW .................................................. 245

NEWS FROM THE AMERICAN HEART ASSOCIATION
Report of Inter-Society Commission for Heart Disease Resources:
Medical Instrumentation in Peripheral Vascular Disease .................................................. A-285

No. 2 (February)

EDITORIALS:
Some Observations on Hyperlipoproteinemias and their Classification. Daniel Steinberg .................................................. 247

Sudden Death—What Are We Talking About? Gunnar Biörck and Bo Wikland .................................................. 256

ORIGINAL ARTICLES:
Primary Dissecting Aneurysm of Coronary Artery: A Cause of Acute Myocardial Ischemia. David G. Claudon, Dann B. Claudon, and Jesse E. Edwards .................................................. 259

Hemodynamics at Rest and during Exercise in Combined Aortic Stenosis and Insufficiency. Philip O. Ettinger, Martin J. Frank, and Gilbert E. Levinson .................................................. 267

Bundle of His Recordings in Congenital Complete Heart Block. David T. Kelly, Sidney J. Brodsky, M. Mirowski, L. Jerome Krovetz, and Richard D. Rowe .................................................. 277

(Continued)
CONTENTS OF VOLUME XLV

His Bundle Electrogram in Bundle-Branch Block. N. Ranganathan, R. Dhurandhar, J. H. Phillips, and E. D. Wigle ............... 282

His Bundle Recordings in Children with Normal Hearts and Congenital Heart Disease. Nigel K. Roberts and P. M. Olley ........... 295

Hemodynamic Consequences of Pacing-Induced Changes in Heart Rate in Valvular Aortic Stenosis. Joseph W. Linhart ....... 300

Cardiovascular Effects of Weight Reduction. James K. Alexander and Kirk L. Peterson ............................................. 310

Ultrasoundcardiographic Studies of the Mitral Valve Region in Young Infants with Mitral Atresia, Mitral Stenosis, Hypoplasia of the Left Ventricle, and Cor Triatriatum. Nils-Rune Lundström 324

Relation between Digoxin Arrhythmias and ABO Blood Groups. Boston Collaborative Drug Surveillance Program ........... 352

Nonparoxysmal Junctional Tachycardia Complicating Acute Myocardial Infarction. Lee L. Konecke and Suzanne B. Knoebel .... 367

Systolic Time Intervals and Left Ventricular Function in Acute Myocardial Infarction. Paul Hamosh, Jay N. Cohn, Karl Engelmann, Martin I. Broder, and Edward D. Freis ......................... 375

Microangiography of the Pulmonary Arterial System in "Hypoplastic Left Heart Syndrome." Crawford A. Grant and Bengt Robertson 382

Left Heart Volume Characteristics with a Right Ventricular Volume Overload: Total Anomalous Pulmonary Venous Connection and Large Atrial Septal Defect. Thomas P. Graham, Jr., Jay M. Jarmakani, and Ramon V. Canent, Jr. .............................................................. 389

Truncal Valve Abnormalities in Infants with Persistent Truncus Arteriosus: A Clinicopathologic Study. Henry Gelband, Sharon Van Meter, and Welton M. Gersony ........................................... 397

Observations on the Natural History of Pulmonary Artery Coarctations. W. Jay Eldredge, Jon B. Tingelstad, Louise W. Robertson, H. Page Mauck, and Carolyn M. McCue ................................. 404

Physiologic Pressure Differences between Main and Branch Pulmonary Arteries in Infants. Dolores A. Danilowicz, Abraham M. Rudolf, Julien I. E. Hoffman, and Michael Heymann ....................... 410

SPECIAL ARTICLES:

Relationship of Surface Electrogram Recordings to Activity in the Underlying Specialized Conducting Tissue. Robert J. Myerburg, Kristina Nilsson, and Robert G. Zoble ........................................... 420

(Continued)
Arteriosclerosis: Policy, Polity, and Parity. Theodore Cooper .......... 433

SYMPOSIUM: Myocardial Infarction 1972 (Part 2)

Electrocardiogram and Vectorcardiogram in Myocardial Infarction.
Harold D. Levine, Eliot Young, and Richard A. Williams .......... 457

Serum Enzyme Determinations in the Diagnosis and Assessment of Myocardial Infarction. Burton E. Sobel and William E. Shell .......... 471

Metabolic Response during Impending Myocardial Infarction: I. Relevance of Studies of Glucose and Fatty Acid Metabolism in Animals. L. H. Opie ................. 483

Metabolic Response during Impending Myocardial Infarction: II. Clinical Implications. M. F. Oliver .......... 491

WHO MEMORANDUM:
Classification of Hyperlipidemias and Hyperlipoproteinemias .......... 501

BOOK REVIEW

LETTERS TO THE EDITOR:
Hemodynamics of Uremic Anemia. Thomas G. Coleman .......... 510

NEWS FROM THE AMERICAN HEART ASSOCIATION

No. 3 (March)

EDITORIAL:
Glucagon: A Perspective. Gerald Glick .......... 513

ORIGINAL ARTICLES:

Disabling Supraventricular Tachycardia of Wolff-Parkinson-White Syndrome (Type A) Controlled by Surgical A-V Block and a Demand Pacemaker after Epicardial Mapping Studies. Marshall C. Dunaway, Spencer B. King, Jr., Charles R. Hatcher, Jr., and R. Bruce Logue .......... 522

Wolff-Parkinson-White Syndrome: Conversion of Type A to Type B Electrocardiographic Changes. S. Ramachandran .......... 529

Glucagon in Heart Failure and in Cardiogenic Shock: Experience in 50 Patients. Robert Lwoff and David E. L. Wilcken .......... 534

Long-Term Prognosis of Rheumatic Fever Patients Receiving Regular Intramuscular Benzathine Penicillin. Dorothy G. Tompkins, Bernard Boxerbaum, and Jerome Liebman .......... 543

On the Mechanism of the Austin Flint Murmur. Nicholas J. Fortuin and Ernest Craig .......... 558

(Continued)
Combined Therapy with Vasodilator Drugs and Beta-Adrenergic Blockade in Hypertension: A Comparative Study of Minoxidil and Hydralazine. Thomas B. Gottlieb, Fred H. Katz, and Charles A. Chidsey III .................................................. 571

Blood-Gas Changes and Pulmonary Hemodynamics following Acute Myocardial Infarction. Sidney J. Fillmore, Armenio C. Guimarrães, Stephen S. Scheidt, and Thomas Killip III ........................................... 583

Resting and Exercise Systolic Time Intervals: Correlations with Ventricular Performance in Patients with Coronary Artery Disease. David R. McConahay, Carroll M. Martin, and Melvin D. Cheitlin .................. 592

Conduction Disturbances Located within the His Bundle. Reinier M. Schuilenburg and Dirk Durrer .......................................................... 612

Further Observations on the Ventricular Echo Phenomenon Elicited in the Human Heart: Is the Atrium Part of the Echo Pathway? Reinier M. Schuilenburg and Dirk Durrer ........................................... 629

Eccentric Ventricular Hypertrophy in Familial and Sporadic Instances of 46 XX, XY Turner Phenotype. Kathryn H. Ehlers, Mary Allen Engle, Aaron R. Levin, and William J. Deely ................. 639

Left Pulmonary Artery from Ascending Aorta in Tetralogy of Fallot. Jacob R. Morgan ................................................................. 653

Acquired Right Bundle-Branch Block and Left Anterior Hemiblock in Ostium Primum Atrial Septal Defect. Dwain L. Eckberg, John Ross, Jr., and Jacob R. Morgan .............. 658

Premature Closure of the Mitral and Tricuspid Valves. Donald A. Spring, John D. Folts, William P. Young, and George G. Rowe ......... 663

RADIOLOGIC NOTES IN CARDIOLOGY:
Abnormalities of the Mitral Valve in Endocardial Cushion Defects. Murray G. Baron ................................................................. 672

SYMPOSIUM: Myocardial Infarction 1972 (Part 3)

Tachyarrhythmias in Myocardial Infarction. Roman W. DeSanctis, Peter Block, and Adolph M. Hutter, Jr. .................. 681

Bradyarrhythmias in Acute Myocardial Infarction. Michael Rotman, Galen S. Wagner, and Andrew G. Wallace .................. 703

BOOK REVIEWS ............................................. 723

NEWS FROM THE AMERICAN HEART ASSOCIATION

EDITORIALS:
Caution and Coronary Artery Surgery:—Timeo chirurgos et dona ferentes. Charles K. Friedberg ............................................. 727

ORIGINAL ARTICLES:

(Continued)
CONTENTS OF VOLUME XLV

Left Ventricular Stress and Compliance in Man: With Special Reference to Normalized Ventricular Function Curves. William H. Gaasch, William E. Battle, Allen A. Oboler, John S. Banas, Jr., and Herbert J. Levine 746

Coronary Hemodynamics and Myocardial Oxygen Metabolism during Oxygen Breathing in Patients with and without Coronary Artery Disease. William Ganz, Roberto Donoso, Harold Marcus, and H. J. C. Swan 763

Tricuspid Insufficiency: A Study of Hemodynamics and Pathogenesis. Charles E. Haning and George G. Rowe 793

Basement Membrane Changes in Myocardial and Skeletal Muscle Capillaries in Myxedema. P. M. McFadden and G. S. Berenson 808

Probability of Middle-Aged Men Developing Coronary Heart Disease in Five Years. Ancel Keys, Christ Aravanis, Henry Blackburn, F. S. P. van Buchem, Ratko Buzina, B. S. Djordjevic, Flaminio Fidanza, Martti J. Karvonen, Alessandro Menotti, Vittorio Puddu, and Henry L. Taylor 815

Interrelationship of Serum Lipids with Relative Weight, Blood Glucose, and Physical Activity. Mario R. Garcia-Palmieri, Raul Costas, Jr., Joyce Schiffman, Angel A. Colon, Raquel Torres, and Emil Nazario 829

Long-Term Follow-up Study of Survival and Recurrence Rates following Myocardial Infarction in Exercising and Control Subjects. Peter A. Rechnitzer, H. A. Pickard, Allan U. Paivio, Michael A. Yuhasz, and David Cunningham 853

Further Applications of Scintillation Scanning Technics to the Diagnosis and Management of Infants and Children with Congenital Heart Disease. Arthur D. Hagan, William F. Friedman, William L. Ashburn, and Naomi Alazraki 858

SPECIAL ARTICLES:

Some Reflections on the Coronary Bypass Operation. William W. L. Glenn 869

(Continued)
CONTENTS OF VOLUME XLV

Natural History of Mitral Stenosis: A Review. Arthur Selzer and Keith E. Cohn ............................................. 878

SYMPOSIUM: Myocardial Infarction 1972 (Part 4)

Use of Anticoagulants in Acute Myocardial Infarction. Richard V. Ebert ................................................................. 903
Antiplatelet Aggregant Agents and Thrombolytic Compounds in Myocardial Infarction: Current Status. Stanford Wessler and Lawrence A. Sherman ...................................................... 911

BOOK REVIEWS ......................................................................................................................................................... 919

No. 5 (May)

EDITORIAL:

Value and Limitations of Systolic Time Intervals (Preejection Period and Ejection Time) in Patients with Acute Myocardial Infarction. Joseph Perloff and Nathaniel Reichek ................................................................. 929

ORIGINAL ARTICLES:

Left Ventricular Preejection Period and Ejection Time in Patients with Acute Myocardial Infarction. Morrison Hodges, Barry L. Halpern, Gottlieb C. Friesinger, and Gilles R. Dagenais ................................................................. 933
Left Ventricular Dilatation and Diastolic Compliance Changes during Chronic Volume Overloading. William H. McCullagh, James W. Covell, and John Ross, Jr. ................................................................. 943
Site of Heart Block as Defined by His Bundle Recording: Pathologic Correlations in Three Cases. Kenneth M. Rosen, Shahbudin H. Rahimtoola, Rolf M. Gunnar, and Maurice Lev ................................................................. 965
Type IV Hyperlipoproteinemia in a Consanguinous Family. Morteza Amidi ........................................................................... 988
Effects of Treatment on Morbidity in Hypertension: III. Influence of Age, Diastolic Pressure, and Prior Cardiovascular Disease; Further Analysis of Side Effects. Veterans Administration Study Group on Antihypertensive Agents ....................................................................................... 991

(Continued)
CONTENTS OF VOLUME XLV

Arrhythmias following Cardiac Valve Replacement. Roger Smith, William Grossman, Lewis Johnson, Herman Segal, John Collins, and James Dalen .................................................. 1018

Effectiveness of Bretylium Tosylate against Refractory Ventricular Arrhythmias. Jerrold G. Bernstein and Jan Koch-Weser .......... 1024

Ventricular Tachycardia with Narrow QRS Complexes (Left Posterior Fascicular Tachycardia). Howard C. Cohen, Edilberto G. Gozo, Jr., and Alfred Pick ...................................................... 1035

Influence of Nitroglycerin on Myocardial Metabolism and Hemodynamics during Angina Induced by Atrial Pacing. Miguel A. Chiong, Roxroy O. West, and John O. Parker ............................... 1044

Day-to-Day Variation of the Normal Orthogonal Electrocardiogram and Vectorcardiogram. Jos L. Willems, Pio F. Poblete, and Hubert V. Pipberger ................................................................. 1057

Quantitative Angiography in Ischemic Heart Disease: The Spectrum of Abnormal Left Ventricular Function and the Role of Abnormally Contracting Segments. Glen W. Hamilton, John A. Murray, and J. Ward Kennedy .................................................. 1065

Preexcitation and Tachycardias in Wolff-Parkinson-White Syndrome, Type B: A Case Report. John W. Lister, Francis X. Worthington, Jr., Thomas O. Gentsch, John A. Swenson, David A. Nathan, and Arthur J. Gosselin ....................................................... 1081

Cerebral Blood Flow during Carotid Endarterectomy. Arthur G. Waltz, Thoralf M. Sundt, Jr., and John D. Michenfelder ............................ 1091

SYMPOSIUM: Myocardial Infarction 1972 (Part 5)

Use of Drugs in Cardiogenic Shock due to Acute Myocardial Infarction. Rolf M. Gunnar and Henry S. Loeb ........................................ 1111

Heart Failure Complicating Acute Myocardial Infarction. Michael J. Wolk, Stephen Scheidt, and Thomas Killip .......................................... 1125

BOOK REVIEWS .......................................................... 1139

LETTERS TO THE EDITOR:

Low-Ganong-Levine Syndrome. John E. Douglas ........................................ 1143

Pacemaker Failure following External Defibrillation. Jerzy O. Giedwoyn ........................................................ 1144

Midsystolic Clicks in Arteriosclerotic Heart Disease. R. Barrett Steelman .......................................................... 1145

EDITORIAL:

Surgery for Transposition of the Great Arteries. Dwight C. McGoon . . . 1147

(Continued)
CONTENTS OF VOLUME XLV

ORIGINAL ARTICLES:

Effects of Intraaortic Balloon Counterpulsation on the Severity of Myocardial Ischemic Injury following Acute Coronary Occlusion Counterpulsation and Myocardial Injury. Peter R. Maroko, Eugene F. Bernstein, Peter Libby, Giacomo A. DeLaria, James W. Covell, John Ross, Jr., and Eugene Braunwald ......................... 1150

Ouabain Pharmacokinetics in Dog and Man: Determination by Radioimmunoassay. Richard Selden and Thomas W. Smith ......................... 1176

Hemodynamic Observations One and Two Years after Cardiac Transplantation in Man. Edward B. Stinson, Randall B. Grieppe, John S. Schroeder, Eugene Dong, Jr., and Norman E. Shumway ......................... 1183

Abnormalities of Ventricular Motion Induced by Atrial Pacing in Coronary Artery Disease. Andre Pasternac, Richard Gorlin, Edmund H. Sonnenblick, Jacob I. Haft, and Harvey C. Kemp ......................... 1195

Normal and Prosthetic Atrioventricular Valve Motion in Atrial Flutter: Correlation of Ultrasound, Vectorcardiographic, and Phonocardio graphic Findings. Edwin L. Alderman, David A. Ryland, Richard S. Crow, Robert E. Finegan, and Donald C. Harrison ......................... 1206

Cardiac Rupture during Myocardial Infarction: A Review of 44 Cases. Faramarz Naeim, Luis M. de la Maza, and Stanley L. Robbins ......................... 1231

Management of Total Anomalous Pulmonary Venous Return. Galal El-Said, Charles E. Mullins, and Dan G. McNamara ......................... 1240

Results over a Ten-Year Period of Palliation followed by Corrective Surgery for Complete Transposition of the Great Arteries. Patricia M. Clarkson, Brian G. Barratt-Boyes, John M. Neutze, and James B. Lowe ......................... 1251

SPECIAL ARTICLES:

Biologic Valves: Their Performance and Prospects. Donald N. Ross ......................... 1259

Atropine and Acute Myocardial Infarction. Stephen E. Epstein, David R. Redwood, and Eldon R. Smith ......................... 1273

SYMPOSIUM: Myocardial Infarction 1972 (Part 6)

Mechanical Circulatory Assistance: Current Status and Experience with Combining Circulatory Assistance, Emergency Coronary Angiography, and Acute Myocardial Revascularization. Charles A. Sanders, Mortimer J. Buckley, Robert C. Leinbach, Eldred D. Mundth, and W. Gerald Austen ......................... 1292

Bypass Grafting for Preinfarction Angina. Frank C. Spencer ......................... 1314
