VOLUME XLVI
July-December, 1972

No. 1 (July)

EDITORIAL:
Of Toads and Flowers. Daniel S. Lukas .................................................. 1

ORIGINAL ARTICLES:
Clinical Spectrum of the Sick Sinus Syndrome. Joel J. Rubenstein, Charles L. Schulman, Peter M. Yurchak, and Roman W. DeSanctis .......................... 5
Analysis of Left Ventricular Wall Motion by Reflected Ultrasound: Application to Assessment of Myocardial Function. Ian G. McDonald, Harvey Feigenbaum, and Sonia Chang ........................................ 14
Evaluation of Left Ventricular Function by Echocardiography. Nicholas J. Fortuin, William P. Hood, Jr., and Ernest Craige ........................................... 26
Echocardiography in the Diagnosis of Congenital Mitral Stenosis and in Evaluation of the Results of Mitral Valvotomy. Nils-Rune Lundstrom ........................................ 44
Echocardiography in the Diagnosis of Hypoplasia of the Left or Right Ventricle in the Neonate. Richard A. Meyer and Samuel Kaplan .................. 55
Ischemic Heart Disease: Insulin, Carbohydrate, and Lipid Interrelationships. Menard M. Gertler, Hillar E. Leetma, Erich Saluste, James L. Rosenberger, and Robert G. Guthrie ............................................. 103
Percutaneous Myocardial Biopsy of the Left Ventricle: Experience in 198 Patients. Earl K. Shirey, William A. Hawk, Devobroto Mukerji, and Donald B. Effer ............................................................................. 112
Demonstration of Entrance Block into the Atrioventricular Node of Man. F. Jacob Varghese, Anthony N. Damato, Karlen L. Paulay, John J. Gallagher, and Sun H. Lau ........................................... 123

(Continued)
CONTENTS OF VOLUME XLVI

Atrioventricular Conduction System in Left Bundle-Branch Block with Normal QRS Axis. David S. Cannom, Bruce N. Goldreyer, and Anthony N. Damato ........................................... 129

Left Ventricular Papillary Muscles: Description of the Normal and a Survey of Conditions Causing them to be Abnormal. William C. Roberts and Lawrence S. Cohen ........................................... 138

Sail Sound in Ebstein’s Anomaly of the Tricuspid Valve. Mary E. Fontana and Charles F. Wooley ........................................... 155

Congenital Cardiovascular Disease and Anomalies of the Third and Fourth Pharyngeal Pouch. Robert M. Freedom, Fred S. Rosen, and Alexander S. Nadas ........................................... 165

DIGITALIS:
Effects of Digitalis on Myocardial Ionic Exchange. C. A. Langer ........................................... 180

Contribution of Quantitative Assay Technics to the Understanding of the Clinical Pharmacology of Digitalis. Thomas W. Smith ........................................... 188

CLINICOPATHOLOGIC CORRELATIONS:
Bland Thrombosis and Infection in Relation to Intracardiac Catheter. Anton E. Becker, Mies J. Becker, Franklin H. Martin, and Jesse E. Edwards ........................................... 200

BOOK REVIEWS ........................................... 204

LETTERS TO THE EDITOR:
Relationship of Surface Electrogram Recordings to Activity in the Underlying Specialized Conducting Tissue. Allen M. Scher and Madison S. Spach ........................................... 206

NEWS FROM THE AMERICAN HEART ASSOCIATION
Report of Inter-Society Commission for Heart Disease Resources: Hospital Resources for a Quality Amputation Program ........................................... A-293

No. 2 (August)

EDITORIALS:
Total Anomalous Pulmonary Venous Drainage: Success Story at Last. Mary Allen Engle ........................................... 209

Noncardiogenic Forms of Pulmonary Edema. Joel S. Karliner ........................................... 212

ORIGINAL ARTICLES:
Electrical Stimulation of the Heart in Patients with Ventricular Tachycardia. Hein J. Wellens, Reinier M. Schuilenburg, and Dirk Durrer ........................................... 216

(Continued)
CONTENTS OF VOLUME XLVI

Systemic Arterial Blood Pressure during Exercise in Patients with Atherosclerosis Obliterans of the Lower Limbs. Einar Lorentsen 257

Phenomenon of Supernormality in the Human Heart. Rashid A. Massumi, Ezra A. Amsterdam, and Dean T. Mason 264

Gross Anatomy Associated with Patterns Called Left Posterior Hemiblock. A. Wade Strickland, Leo G. Horan, and Nancy C. Flowers 276

Discrete Subaortic Stenosis. D. T. Kelly, E. Wulfsberg, and Richard D. Rowe 309

Alteration of Glucose and Insulin Metabolism in Congenital Heart Disease. Gershon Hait, Marina Corpus, Francois R. Lamarre, Shang-Hsien Yuan, Jindrich Kypson, and Grace Cheng 333

Total Anomalous Pulmonary Venous Drainage in Infants: I. Clinical and Hemodynamic Findings, Methods, and Results of Operation in 37 Cases. D. M. Behrendt, E. Aberdeen, D. J. Waterston, and R. E. Bonham-Carter 347

Common Pulmonary Vein Atresia: Premortem Diagnosis in Two Infants. Richard E. Hawker, John M. Celermajer, Don C. Gengos, Timothy B. Cartmill, and J. Denby Bowdler 368

The Conotruncus: II. Report of a Case Showing Persistent Aortic Conus and Lack of Inversion of the Truncus (A Bulboventricular Heart). Daniel A. Goor and Jesse E. Edwards 385

SPECIAL ARTICLE:

Pulmonary Edema: The Water-Exchanging Function of the Lung. Alfred P. Fishman 390

CLINICOPATHOLOGIC CORRELATIONS:

Surface Thrombosis and Fibrous Encapsulation of Intravenous Pacemaker Catheter Electrode. Anton E. Becker, Mies J. Becker, David G. Claudon, and Jesse E. Edwards 409

(Continued)
CONTENTS OF VOLUME XLVI

BOOK REVIEWS .................................................................................................................. 413

BOOKS RECEIVED .............................................................................................................. 419

LETTERS TO THE EDITOR:
  Bundle of His Recordings in Congenital Complete Heart Block.
    Warren G. Guntheroth ..................................................................................................... 421

NEWS FROM THE AMERICAN HEART ASSOCIATION
  Report of the Inter-Society Commission for Heart Disease Resources:
    Optimal Resources for Vascular Surgery .................................................................... A-305

No. 3 (September)

EDITORIALS:
  Compliance of the Left Ventricle. Herbert J. Levine ......................................................... 423
  Rupture of the Heart Complicating Myocardial Infarction. Eldred D. Mundth .................. 427

ORIGINAL ARTICLES:
  Reduction by Hyaluronidase of Myocardial Necrosis following Coronary Artery Occlusion.
    Peter R. Maroko, Peter Libby, Colin M. Bloor, Burton E. Sobel, and Eugene Braunwald .... 430
  Effects of Coronary Arteriography on Myocardial Blood Flow. Frank E. Kloster, W. Glenn
    Friesen, Gerald S. Green, and Melvin P. Judkins ......................................................... 438
  Postoperative Evaluation of Myocardial Blood Flow in Aorta-to-Coronary Artery Vein
    Bypass Grafts Using the Xenon-Residue Detection Technic. O. Lichtlen, T. Moccetti, J.
    Halter, M. Schönbeck, and A. Senning ......................................................................... 445
  Hemodynamics of Hypertension in Chronic End-Stage Renal Diseases.
    Kwan Eun Kim, Gaddo Onesti, Allan B. Schwartz, Joel L. Chinitz, and Charles Swartz .... 456
  Clinical and Hemodynamic Results of Intraaortic Balloon Pumping and Surgery for
    Cardiogenic Shock. W. Bruce Dunkman, Robert C. Leinbach, Mortimer J. Buckley, Eldred
    D. Mundth, Arthur R. Kantrowitz, W. Gerald Austen, and Charles A. Sanders ............. 465
  Left Heart Function in Children with Tetralogy of Fallot before and after Palliative or
    Corrective Surgery. Jay M. M. Jarmakani, Thomas P. Graham, Jr., Ramon V. Canent, Jr.,
    and Paul H. Jewett ....................................................................................................... 478
  Acute Severe Mitral Regurgitation from Papillary Muscle Dysfunction in Acute Myocardial
    Infarction: Successful Early Surgical Treatment by Combined Mitral Valve Replacement
    and Aortocoronary Saphenous Vein Bypass Graft. Tsung O. Cheng, Tali Bashour, and
    Paul C. Adkins ............................................................................................................... 491
  Effect of Propranolol, Procoaminide, and Lidocaine on Ventricular Automaticity and Reentry
    in Experimental Myocardial Infarction. Olive W. Gamble and Keith Cohn ................. 498
  Effects of Coronary Bypass Graft Occlusion on Left Ventricular Performance.
    Richard P. Anderson ...................................................................................................... 507
  Reversible Complete Heart Block following Cardiac Surgery: Analysis of His Bundle
    Electrograms. Page A. W. Anderson, Mark C. Rogers, Ramon V. Canent, Jr., Jay M. M.
    Jarmakani, Paul H. Jewett, and Madison S. Spach ................................................... 514
  Supernormal Conduction in the Human Atria. Abdul S. Agha, Cesar A. Castillo, Agustin
    Castellanos, Jr., Robert J. Myerburg, and Michael P. Tessler ...................................... 522

(Continued)
CONTENTS OF VOLUME XLVI

Canine Electrocardiographic and Cardiac Electrophysiologic Changes Induced by Procainamide. Michael R. Rosen, Harry Gelband, and Brian F. Hoffman .................................................. 528

Hematoma of the Interventricular Septum with Heart Block Secondary to Dissecting Aneurysm of the Aorta: A Clinicopathologic Entity. Magdi H. Yacoub, Mark Schottenfeld, and C. Frederick Kittle .......... 537

Altered Distribution of Tritiated Digoxin in the Infarcted Canine Left Ventricle. George A. Beller, Thomas W. Smith, and William B. Hood, Jr. ................................................................. 572

Echocardiographic Diagnosis of Mitral Regurgitation due to Ruptured Chordae Tendineae. Thomas Sweatman, Arthur Selzer, Masanobu Kamagaki, and Keith Cohn .................................................... 580

SPECIAL ARTICLE:

RADIOLOGIC NOTES IN CARDIOLOGY:
Angiographic Appearance of Idiopathic Hypertrophic Subaortic Stenosis. Allan L. Simon .......................................................... 614

CLINICOPATHOLOGIC CORRELATIONS:
Mitrval Insufficiency Secondary to Aortic Valvular Bacterial Endocarditis. Jesse E. Edwards .................................................. 623

BOOK REVIEWS .................................................. 627

LETTERS TO THE EDITOR:
Resting and Exercise Systolic Intervals. Arnold M. Weissler .......... 633

The Conotruncus: I. Its Normal Inversion and Conus Absorption. Maurice Lev .......................................................... 634

NEWS FROM THE AMERICAN HEART ASSOCIATION

CONTENTS OF VOLUME XLVI

Longevity and Cardiovascular Mortality among Former College Athletes. Anthony P. Poldenak ............................................. 649

Decreased Reactivity of Lymphocytes in Mixed Leukocyte Culture from Patients with Rheumatic Fever. Richard D. Lueker and Ralph C. Williams, Jr. ............................................. 655

Ventricular Fibrillation Occurring on Arousal from Sleep by Auditory Stimuli. Hein J. J. Wellens, Aart Vermeulen, and Dirk Durrer ............ 661

Nonatheromatous Ischemic Heart Disease following Withdrawal from Chronic Indusrial Nitroglycerin Exposure. Ramon L. Lange, Michael S. Reid, Donald D. Tresch, Michael H. Keelan, Victor M. Bernhard, and George Coolidge ............................................. 666

Atrial Standstill Secondary to Atrial Inexcitability (Atrial Quiescence): Recognition and Treatment following Open-Heart Surgery. Albert L. Waldo, Kari J. Vittikainen, Gerard A. Kaiser, Frederick O. Bowman, Jr., and James R. Malm ............................................. 690

Intravascular Platelet Aggregation in the Heart Induced by Norepinephrine: Microscopic Studies. Jacob I. Haft, Paul D. Kranz, Frank J. Albert, and Kazem Pani ............................................. 698

Serum Lipids and Lipoproteins in Men after Myocardial Infarction compared with Representative Population Sample. Anders Gustafsson, Dag Elmfeldt, Lars Wilhelmsen, and Gösta Tibblin ............................................. 709

Fate of Left Ventricular Contraction following Aortocoronary Venous Grafts: Early and Late Postoperative Modifications. Martial G. Bourassa, Jacques Lespérance, Lucien Campeau, and Jacques Saltiel ............................................. 724

Evolution of Abnormalities in Left Ventricular Function after Acute Myocardial Infarction. Martin I. Broder and Jay N. Cohn ............................................. 731

Clinical and Anatomic Implications of Intraventricular Conduction Blocks in Acute Myocardial Infarction. M. Scheinman and B. Brenman ............................................. 753

Assessment of Sinus Node Function in Patients with the Sick Sinus Syndrome. William J. Mandel, Hirokazu Hayakawa, Howard N. Allen, Ronald Danzig, and Alan I. Kermaier ............................................. 761

Effects of Blood Volume Expansion on Left Ventricular Hemodynamics in Man. V. R. Sanghvi, F. Khaja, A. L. Mark, and J. O. Parker ............................................. 780

Conversion of Supraventricular Tachycardias with Rapid Atrial Stimulation. George S. Vergara, Frank J. Hildner, Clyde B. Schoenfeld, Roger P. Javier, Lawrence S. Cohen, and Philip Samet ............................................. 788

Coexistence of Single Ventricle with Atria of One Atrioventricular Orifice. Manuel Quero ............................................. (Continued)
CONTENTS OF VOLUME XLVI

Transposition of the Great Arteries: Changes in the Circulation after Birth. Michael Tynan 809

Effects of Digoxin on Systolic Time Intervals of Neonates and Infants. Arthur M. Levy, David M. Leaman, and John S. Hanson 816

RADIOLOGIC NOTES IN CARDIOLOGY: Adrenal Venography in the Study of Hypertension. Harold A. Mitty 824

CORRECTION 827
