CIRCULATION

VOLUME XLVII

January-June 1973

No. 1 (January)

EDITORIALS:
Hypertension: A Challenge in Preventive Cardiology. Edward D. Freis

Bacterial Endocarditis and Prosthetic Valves. Jesse E. Edwards

Excitation-Contraction Coupling and Digitalis. Harry A. Fozzard

ORIGINAL ARTICLES:
Normal Blood Supply to the Human His Bundle and Proximal Bundle Branches. Richard J. Frink and Thomas N. James

Geometry of Left Ventricular Contraction in the Systolic Click Syndrome: Characterization of a Segmental Myocardial Abnormality. A. James Liedtke, James H. Gault, David M. Leaman, and Melvin S. Blumenthal

Long-Term Observations in Patients with Angina and Normal Coronary Arteriograms. Carl R. Bemiller, Carl J. Pepine, and Albert K. Rogers

Hypertension in the Inner City: I. Analysis of Clinic Dropouts. Frank A. Finnerty, Jr., Edward C. Mattie, and Francis A. Finnerty, III

Hypertension in the Inner City: II. Detection and Follow-up. Frank A. Finnerty, Jr., Lawrence W. Shaw, and Clifton K. Himmelsbach

Premature Atrial Stimulation as a Key to the Understanding of Sinoatrial Conduction in Man: Presentation of Data and Critical Review of the Literature. Harold C. Strauss, Alan L. Saroff, J. T. Bigger, Jr., and Elsa Grace V. Giardina

Effect of Breathing Oxygen in Patients with Severe Pulmonary Vascular Obstructive Disease. Ehud Krongrad, H. Frederic Helmholz, Jr., and Donald G. Ritter

Determination of Systemic Vascular Resistance by a Noninvasive Technic. Miltiadis A. Stefadouros, Michael J. Dougerty, William Grossman, and Ernest Craig

Echocardiography in the Normal Neonate. Robert Solinger, Francisco Elbl, and Kareem Minhas

Constriction of the Fetal Ductus Arteriosus Induced by Oxygen, Acetylcholine, and Norepinephrine in Normal Dogs and those Genetically Predisposed to Persistent Patency. David H. Knight, Donald F. Patterson, and Julius Melbin

Coronary Arterial-Right Heart Fistulae: Long-Term Observations in Seven Patients. Richard B. Jaffe, D. Lake Glancy, Stephen E. Epstein, B. Gregory Brown, and Andrew G. Morrow

Right Ventricular Volume Determinations in Children: Normal Values and Observations with Volume or Pressure Overload. Thomas P. Graham, Jr., Jay M. Jarmakani, Gerald F. Atwood, and Ramon V. Canent, Jr.

(Continued)
CONTENTS OF VOLUME XLVII

RADIOLOGIC NOTES IN CARDIOLOGY:

CLINICOPATHOLOGIC CORRELATIONS:
Correlation of the Antemortem Coronary Arteriogram and the Postmortem Specimen. Zeev Vlodaver, Robert Frech, Robert A. Van Tassel, and Jesse E. Edwards ................................................................. 162

SYMPOSIUM: CARDIAC ARRHYTHMIAS (Part I)
Anatomy of the Conduction System. Jack L. Titus ................................................................. 170
Ultrasound of the Atrial, Ventricular, and Purkinje Cell with Special Reference to the Genesis of Arrhythmias. Marianne J. Legato ................................................................. 178
Genesis of Cardiac Arrhythmias. Paul F. Cranefield, Andrew L. Wit, and Brian F. Hoffman ................................................................. 190

BOOKS REVIEWS ................................................................. 205

LETTERS TO THE EDITOR:
Classification of Chordae Tendineae. William D. Towne ................................................................. 209
Acquired Right Bundle-Bunch Block and Left Anterior Hemiblock in Ostium Primum Atrial Septal Defect. Antonio Pedraza ................................................................. 209
Sinoatrial Node Entrance Block. Peter Fleischmann ................................................................. 210
Of Toads and Flowers. James E. Doherty ................................................................. 212

CORRECTION ................................................................. 18

NEWS FROM THE AMERICAN HEART ASSOCIATION:
Report of the Inter-Society Commission for Heart Disease Resources: Unanswered Questions ................................................................. A-341

No. 2 (February)

EDITORIALS:
Hypotension, Nitroglycerin, and Acute Myocardial Infarction. Stephen E. Epstein ................................................................. 217
Venography. William J. Williams ................................................................. 220
A Retrospective Look at A-V Nodal Rhythms. Albert L. Waldo and Thomas N. James ................................................................. 222

ORIGINAL ARTICLES:
Asymmetric Septal Hypertrophy: Echocardiographic Identification of the Pathognomonic Anatomic Abnormality of IHSS. Walter L. Henry, Chester E. Clark, and Stephen E. Epstein ................................................................. 225
Saphenous Vein Coronary Artery Bypass in Patients with "Preinfarction Angina." D. Craig Miller, David S. Cannom, Thomas J. Fogarty, John S. Schroeder, Pat O. Daily, and Donald C. Harrison ................................................................. 234
Inability of the Submaximal Treadmill Stress Test to Predict the Location of Coronary Disease. Marvin A. Kaplan, Clifford N. Harris, Wilbert S. Aronow, David P. Parker, and Myrvin H. Ellesrad ................................................................. 250
Significance of High Degree Atrioventricular Block in Acute Posterior Myocardial Infarction: The Importance of Clinical Setting and Mechanism of Block. Michael Rotman, Galen S. Wagner, and Robert A. Waugh ................................................................. 257
Importance of Identification of the Myocardial-Specific Isoenzyme of Creatine Phosphokinase (MB Form) in the Diagnosis of Acute Myocardial Infarction. Galen S. Wagner, Charles R. Roe, Lee E. Limbird, Robert A. Rosati, and Andrew G. Wallace ................................................................. 263
Systemic Arterial Disease with Myocardial Infarction: Report on Two Infants. Helmar G. Rosenberg ................................................................. 270
Influence of Direct Myocardial Revascularization on Left Ventricular Asynergy and Function in Patients with Coronary Heart Disease: With and without Previous Myocardial Infarction. Kanu Chatterjee, H. J. C. Swan, William W. Parmley, Hector Sustaita, Harold S. Marcus, and Jack Matloff ................................................................. 276
Thirty-Month Follow-up of Maximal Treadmill Stress Test and Double Master's Test in Normal Subjects. Wilbert S. Aronow ................................................................. 287
Ventriculographic Patterns and Hemodynamics in Primary Myocardial Disease. Thomas H. Kreulen, Richard Gorlin, and Michael V. Herman ................................................................. 299
Relationship between Pulmonary Artery End-Diastolic Pressure and Left Ventricular Filling Pressure in Patients in Shock. Melvin Scheinman, G. Thomas Evans, Alan Weiss, and Elliot Rapaport ................................................................. 317
Type I, Type II, and Type III Gaps in Bundle-Bunch Conduction. Abdul S. Agha, Agustin Castellanos, Jr., David Wells, Melvin D. Ross, Benjamin Befeler, and Robert J. Myerburg ................................................................. 325

(Continued)
CONTENTS OF VOLUME XLVII

Response of Resistant Ventricular Tachycardia to Bretylium: Relation to Site of Ectopic Focus and Location of Myocardial Disease. H. C. Cohen, E. C. Gozo, Jr., R. Langendorf, B. M. Kaplan, A. Chan, A. Pick, and G. ClicK .......................................................... 331

Serum Digitalis and Arrhythmia in Patients Undergoing Cardiopulmonary Bypass. John Morrison and Thomas Killip .......................................................... 341

Intravascular Platelet Aggregation in the Heart Induced by Stress. Jacob I. Haft and Kazem Fani .......... 353

Racial Frequencies in Congenital Heart Disease. Barry J. Maron, Judith M. Applefeld, and L. Jerome Krovetz .......................................................... 359

SPECIAL ARTICLE:
Order and Disorder in the Rhythm of the Heart: The Fifth Annual George C. Griffith Lecture. Thomas N. James ........................................................................ 362

RADIOLOGIC NOTES IN CARDIOLOGY:
Radiologic Evaluation of Coronary Artery Surgery. Harold A. Baltaxe ........................................ 387

CLINICOPATHOLOGIC CORRELATIONS:
Absence of Anatomic Origin from Heart of Pulmonary Arterial Supply. Jesse E. Edwards and Dwight C. McGoon .......................................................... 393

SYMPOSIUM: Cardiac Arrhythmias (Part 2)
Hemodynamic Sequence of Cardiac Arrhythmias. Philip Samet .......................................................... 399

Relation of Electrolyte Disturbances to Cardiac Arrhythmias. Charles Fisch ........................................ 408

How to Approach an Arrhythmia. Leo Schamroth .......................................................... 420

BOOK REVIEWS ........................................................................ 427

LETTERS TO THE EDITOR:
Atrazine and Acute Myocardial Infarction. Jaak Han ........................................................................ 429

Echocardiographic Pattern of Right Ventricular Diastolic Volume Overload in Children. James C. Dillon .......................................................... 431

Wolff-Parkinson-White Syndrome. Koen J. J. Bruyneel ........................................................................ 433

CORRECTION .......................................................... 219

NEWS FROM THE AMERICAN HEART ASSOCIATION .......................................................... Page 1

No. 3 (March)

EDITORIALS:
On the Assessment of Cardiac Inotropic State. John Ross, Jr., and Kirk L. Peterson .......................................................... 435

Computers Can Change Cardiology. Andrew G. Wallace and Robert A. Rosati .......................................................... 439

A Comparison of Beta-Blocking Agents. Robert E. Goldstein ........................................................................ 443

ORIGINAL ARTICLES:

Progression of Coronary Artery Disease: A Clinical Arteriographic Study. Charles E. Bemis, Richard Gorlin, Harvey G. Kemp, and Michael V. Herman .......................................................... 455

Sequential Circulatory Changes following Acute Myocardial Infarction in Man: Determination of Optimal Heart Rate at Each Stage of the Infarction by Atrial Pacing. W. Glenn Friesen ........................................................................ 465

Identification of Ischemic Area of Left Ventricle by Visualization of 42K Myocardial Deposition. Robert E. Botti, William J. MacIntyre, and Walter H. Pritchard .......................................................... 486

Electrocardiographic Evidence of Left Atrial Hypertension in Acute Myocardial Infarction. Premindra A. N. Chandraratna and Morrison Hodges ........................................................................ 493

Effects of Nitroglycerin on Responses of the Systolic Time Intervals to Exercise. Willard S. Harris, Neset Aytan, and Jean M. Pouget ........................................................................ 499

Angina Pectoris in Men: Prognostic Significance of Selected Medical Factors. Charles W. Frank, Eve Weimbambl, and Sam Shapiro ........................................................................ 509

Left Ventricular Ejection Time in Valvular Aortic Stenosis. Robert J. Bache, Yang Wang, and Joseph Greenfield, Jr. ........................................................................ 527

Functional 2:1 A-V Block within the His-Purkinje System: Simulation of Type II Second-Degree A-V Block. Anthony N. Damato, P. Jacob Varghese, Anthony R. Caracta, Masood Akhtar, and Sun H. Lau ........................................................................ 534

Paradoxic Phenomenon of Premature Beats with Narrow QRS in the Presence of Bundle-Branch Block. Rashid A. Massumi, General Hilliard, Anthony DeMaria, Ramon Fabregas, Alan E. Lindsay, Ezra Amsterdam, and Dean T. Mason ........................................................................ 543

(Continued)
Quantitative Assessment of Left Ventricular Diastolic Stiffness in Man. William Grossman, Miltiadis A. Stefadouros, Lambert P. McLaurin, Ellis L. Rolett, and Daniel T. Young ................................................................. 567
Congenital Polyvalvular Disease. Saroja Bharati and Maurice Lev ................................................................. 575
Cardiac Manifestations of Marfan Syndrome in Infancy and Childhood. Charlie Phornphutkul, Amnon Rosenthal, and Alexander S. Nadas ................................................................. 587
Echocardiography in the Diagnosis of Ebstein’s Anomaly of the Tricuspid Valve. Nils-Rune Lundström ................................................................. 597

SPECIAL ARTICLE:
Pediatric Congenital Cardiac becomes a Postoperative Adult: The Changing Population of Congenital Heart Disease. Joseph K. Perloff ................................................................. 606

CLINICOPATHOLOGIC REPORTS:
Juxtaposition of the Atrial Appendages. Yzhar Charuzi, Panayiotis K. Spanos, Kurt Amplatz, and Jesse E. Edwards ................................................................. 620

RADIOLOGIC NOTES IN CARDIOLOGY:
Radiologic Appearance of the Azygos Vein in Cardiovascular Disease. E. Robert Heitzman ................................................................. 628

SYMPOSIUM: Cardiac Arrhythmias (Part 3)
The Sick Sinus Syndrome. M. Irene Ferrer ................................................................. 635
Refractory Supraventricular Tachycardias. Andres R. Ticzon and Robert W. Whalen ................................................................. 642
Functional Tachycardia: Mechanisms, Diagnosis, Differential Diagnosis, and Management. Kenneth M. Rosen ................................................................. 654

Dilemmas in Potassium Therapy. Howard B. Burchell .......................... 1144

ORIGINAL ARTICLES:
Progress Study of 590 Consecutive Nonsurgical Cases of Coronary Disease Followed 5-9 Years: I. Arteriographic Correlations. Albert V. G. Bruschke, William L. Proudfit, and F. Mason Sones .......................... 1147
Progress Study of 590 Consecutive Nonsurgical Cases of Coronary Disease Followed 5-9 Years: II. Ventriculographic and Other Correlations. Albert V. G. Bruschke, William L. Proudfit, and F. Mason Sones, Jr. .......................... 1154
Left Ventricular Size after Acute Myocardial Infarction: Serial Changes and their Prognostic Significance. William J. Kostuk, Thomas M. Kazamias, Martin P. Gander, Allan L. Simon, and John Ross, Jr. .......................... 1174

(Continued)
Intraaortic Balloon Pumping for Ventricular Septal Defect or Mitral Regurgitation Complicating Acute Myocardial Infarction. Herman K. Gold, Robert C. Leinbach, Charles A. Sanders, Mortimer J. Buckley, Eldred D. Mundth, and W. Gerald Austen 1191

Intraaortic Balloon Pumping for Control of Recurrent Myocardial Ischemia. Herman K. Gold, Robert C. Leinbach, Charles A. Sanders, Mortimer J. Buckley, Eldred D. Mundth, and W. Gerald Austen 1197

Long-Term Use of Procaine Amide following Acute Myocardial Infarction. Bernard D. Kosowsky, Jack Taylor, Bernard Lown, and Robert F. Ritchie 1204

Diastolic Heart Sounds during Static (Handgrip) Exercise in Patients with Chest Pain. Peter F. Cohn, Peter Thompson, James Tod, Warren Strauss, and Richard Gorlin 1217

A Study of Ventricular Arrhythmias Associated with Acute Myocardial Infarction in the Canine Heart. Albert L. Waldo and Gerard A. Kaiser 1222

Effect of Digitalis on Atrioventricular Conduction and Circus-Movement Tachycardias in Patients with the Wolf-Parkinson-White Syndrome. Hein J. Wellens and Dick Durrer 1229

Nonrheumatic Subvalvular Mitral Regurgitation: Etiology and Clinical Aspects. Philip K. Caves, George C. Sutton, and Matthias Paneth 1242

Infra-His Bundle Origin of Bidirectional Tachycardia. Stafford I. Cohen, Albert Deisseroth, and Harvey S. Hecht 1260

Echocardiographic Determination of Mitral Disc Valve Excursion. Michael L. Johnson, Joseph H. Holmes, and Bruce C. Paton 1274

Systolic Time Intervals in Infants with Congestive Heart Failure. Sang C. Park, Leonard Steinfield, and Ivan Dimich 1281

A Quantitative Evaluation of Heart Size Measurements from Chest Roentgenograms. Lester Glover, William A. Baxley, and Harold T. Dodge 1289

Reduced Red Cell 2,3-Diphosphoglycerate and Adenosine Triphosphate, Hypophosphatemia, and Increased Hemoglobin-Oxygen Affinity after Cardiac Surgery. Jerald A. Young, Marshall A. Lichtman, and Jules Cohen 1313

Prosthetic Aortic Endocarditis: A 12-Year Review. Laura Slaughter, James E. Morris, and Albert Starr 1319

SPECIAL ARTICLE:
Myocardial Ammonia Metabolism in Patients with Heart Disease as Revealed by Coronary Sinus Catheterization Study. Eugene Chazov, V. N. Smirnov, A. V. Mazaev, G. B. Asafov, D. U. Gukowski, and V. T. Krikov 1327

RADIOLOGIC NOTES IN CARDIOLOGY:
Postoperative Roentgen Evaluation of Total Correction of Tetralogy of Fallot. Kent Ellis 1335

CLINICOPATHOLOGIC CORRELATIONS:
Cardiac Malformations Associated with Down's Syndrome. Rajendra Tandon and Jesse E. Edwards 1349

SYMPOSIUM: Cardiac Arrhythmias (Part 6)
Present Status of Electroversion in Management of Cardiac Dysrhythmias. Leon Resnekov 1356

Ventricular Tachyarrhythmias: Clinical Aspects. Bernard Lown, John V. Temte, and Warren J. Arter 1364

Pacemaker Arrhythmias and Electrocardiographic Recognition of Pacing Makers. Augustin Castellanos, Jr. and Louis Lemberg 1382

BOOK REVIEWS 1392

BOOK REVIEWS 1395

LETTERS TO THE EDITOR:
Atropine and Acute Myocardial Infarction. Andrew L. Wit 1397
Regional Dyssynergy in Postinfarct Patients. Ernest L. Fallen 1400
