The American Journal of Cardiology®

Volume 40 September 1977 Number 3

CONTENTS IN BRIEF

CLINICAL STUDIES
Clinical Correlates of Left Ventricular Cavity Obliteration. Albert E. Raizner, Robert A. Chahine, Tetsuo Ishimori and Mahir Awdeh
Phasic Coronary Bypass Graft Blood Velocity During Ventricular Arrhythmias in Man. Alberto Benchimol and Kenneth B. Deser
Structural Changes in Porcine Xenografts Used as Substitute Cardiac Valves. Grass and Histologic Observations in 51 Glutaraldehyde-Preserved Hancock Valves in 41 Patients. Thomas L. Spray and William C. Roberts
Pathologic Findings After Cardiac Valve Replacement With Glutaraldehyde-Fixed Porcine Valves. Michael C. Fishbein, Sally A. Gissen, John J. Collins, Jr., Ernest M. Barsamian and Lawrence H. Cohn
Clinical Experience With the Smeloff-Cutter Aortic Valve Prosthesis: An Eight-Year Follow-Up Study. Radha Sarma, E. John Roschke, Earl C. Harrison, W. Allan Edmiston and Francis Y. K. Lau
Muscle Fiber Disarray in Common Heart Diseases. Johanna van der Bel-Kahn.

EXPERIMENTAL STUDIES
Significance of Subendocardial S-T Segment Elevation Caused by Coronary Stenosis in the Dog. Epicardial S-T Segment Depression, Local Ischemia and Subsequent Necrosis. Robert A. Guyton, James H. McClennen, Glenn E. Newman and Lawrence L. Michaelis
Evolution of Regional Ischemia Distal to a Proximal Coronary Stenosis: Self-Propagation of Ischemia. Robert A. Guyton, James H. McClennen and Lawrence L. Michaelis

PEDIATRIC CARDIOLOGY
Wenckebach Atriocentric Block (Mobitz Type I) in Children and Adolescents. Dennison Young, Robert Eisenberg, Bernard Fish and John D. Fisher
Atrial Defect Size After Blalock-Hanlon Atriocoepectomy. Edward B. Clark, Lauren J. Sweeney and Glenn C. Rosenquist

REPORTS ON THERAPY
Intravenous Diazoxide Therapy in Hypertensive Crisis. Walter J. McDonald, Gordon Smith, James W. Woods, H. Mitchell Perry and Byron D. Danielson
Results and Complications of Intraaortic Balloon Pumping in Surgical and Medical Patients. Armand A. Lefemine, Bernard Kosowsky, Irving Madoff, Harrison Black and Mary Lewis

REVIEWS
Cardiac Rupture — Challenge in Diagnosis and Management. Robert J. Bates, Steven Beutler, Leon Resnekov and C. E. Anagnostopoulos

DIAGNOSTIC SHELF
Loffler's Endocarditis Presenting as Mitral and Tricuspid Stenosis. Arthur E. Weisman, Robert Rankin and Harold King
Displacement of the Heart by a Giant Mediastinal Cyst. Paul C. Koch, Izhak Kronzon, Howard E. Winer, Peter Adams and Max Trubek

CASE REPORTS
Hyoplasia of the Left Ventricle: Rare Cause of Postoperative Mortality in Tetralogy of Fallot. Thomas P. Graham, Jr., Scott Faulkner, Harvey Bender, Jr. and Charles M. Wender

EDITORIALS
Mechanism of Early "Pump" Failure of the Ischemic Heart: Possible Role of Adenosine Triphosphate Depletion and Inorganic Phosphate Accumulation. Wolfgang Kubler and Arnold M. Katz
Early Valve Replacement for Preservation of Ventricular Function? Shahbudin H. Rahimtoola
Idiopathic Hypertrophic Subaortic Stenosis Afflicted: Idols of the Cave and the Marketplace. Bernadine H. Bulkley
