Circulation
VOLUME 65
January, 1982

No. 1 (January)

Current Topics:
Harvey's 1651 Perfusion of the Pulmonary Circulation of Man ........................................ 1
Julius H. Comroe, Jr.
The Canterbury Tales and Cardiology .................. 4
J. Willis Hurst

Original Articles:
Hypertrophic Cardiomyopathy in Infants: Clinical Features and Natural History .......... 7
Barry J. Maron, Abdul J. Tajik, Herbert D. Rutenber, Thomas P. Graham, Gerald F. Atwood, Benjamin E. Victorica, J.T. Lie, and William C. Roberts

Verapamil Versus Placebo in Relieving Stable Angina Pectoris ............................... 17
Michael B. Pine, P. Dennis Citron, Daniel J. Bailly, Samuel Butman, Gilbert O. Plasencia, Daniel W. Landa, and Raymond K. Wong

The 24-hour Ambulatory Blood Pressure Profile with Verapamil .............................. 22
Brian A. Gould, Stewart Mann, Hassan Kieso, V. Bala Subramanian, and Edward B. Raftery

Process Versus Outcome in Hypertension: A Positive Result ................................... 28
R. Brian Haynes, Edward S. Gibson, D. Wayne Taylor, Charles D. Bernholz, and David L. Sackett

Response of the Systemic and Pulmonary Circulation to Converting-enzyme Inhibition (Captopril) at Rest and During Exercise in Hypertensive Patients ........................................ 33
Robert Fagard, Christopher Bulspit, Paul Lijnen, and Antoon Amery

Limitation of Experimental Infarct Size by Angiotensin-converting Enzyme Inhibitor .... 40
Georg Ertl, Robert A. Kloner, R. Wayne Alexander, and Eugene Braunwald

The Effects of Nifedipine on Myocardial Blood Flow and Contraction During Ischemia in the Dog .................................................. 49
William S. Weintraub, Shigehiko Hattori, Jai B. Agarwal, Monty M. Bodenheimer, Vidya S. Banka, and Richard H. Helfant

Highly Localized in Vivo Measurement of Myocardial Perfusion with Avalanche Radiation Detectors ......................................... 54
Ronald P. Karlsberg, Vincent L. Gelezunas, and Kenneth P. Lyons

Determinants of Myocardial Hemorrhage After Coronary Reperfusion in the Anesthetized Dog .................................................. 62

Thallium-201 Kinetics in Nonischemic Canine Myocardium ........................................ 70

Effect of Propranolol on Myocardial Perfusion Images and Exercise Ejection Fraction in Men with Coronary Artery Disease ........................................ 77
Joseph Rainwater, Peter Steele, Dennis Kirch, Michael LeFree, Douglas Jensen, and Robert Vogel

Measurement of Absolute Left Ventricular Volume from Gated Blood Pool Studies ........ 82
Jonathan M. Links, Lewis C. Becker, J. Gregory Shindledeker, Pablo Guzman, Robert D. Burow, Edward L. Nickoloff, Philip O. Alderson, and Henry N. Wagner

Effect of the Geometry of the Left Ventricle on the Calculation of Ejection Fraction .......... 91
Jean G. Dumesnil and Rachid M. Shoucri

Noninvasive Determination of Left Ventricular End-systolic Stress: Validation of the Method and Initial Application ......................................... 99
Nathanial Reichek, John Wilson, Martin Sr. John Sutton, Theodore A. Plappert, Sheldon Goldberg, and John A. Hirshfeld

Influence of the Location of Left Anterior Descending Coronary Artery Stenosis on Left Ventricular Function During Exercise .................................. 109
Ko-hei Leong and Robert H. Jones

Effects of Systemic Hypertension on Ischemic and Nonischemic Regional Left Ventricular Function in Awake, Unsedated Dogs After Experimental Coronary Occlusion .............. 115
Peter G. Roan, Maximilian Buja, Shelly Saffer, Carlos Izquierdo, Herbert Hagler, Becky Duke, L. David Hillis, and James T. Willerson

Pulmonary Blood Volume Ratio Response to Exercise: A Noninvasive Determination of Exercise-induced Changes in Pulmonary Capillary Wedge Pressure ............... 126
Robert D. Okada, Mary D. Osbakken, Charles A. Boucher, H. William Strauss, Peter C. Block, and Gerald M. Pohost

Cardiovascular Responses to Exercise in Middle-aged Men After 10 Days of Bedrest ........ 134
Victor Convertino, Joseph Hung, Danielle Goldwater, and Robert F. DeBusk

The Effect of Age on Heart Rate of Subjects Free of Heart Disease. Studies by Ambulatory Electrocardiography and Maximal Exercise Stress Test ..................................... 141
John B. Kostis, Abel E. Moreyra, Manuel T. Amendo, Joanne Di Pietro, Nora Cosgrove, and Peter T. Kuo

(Continued)
Independent Contribution of Electrocardiographic Abnormalities to Risk of Death from Coronary Heart Disease, Cardiovascular Diseases and All Causes. Findings of Three Chicago Epidemiologic Studies .......................... 146

Epidermal Activation in Patients with Coronary Artery Disease: Effects of Regional Contraction Abnormalities ............................ 154
Isaac Wiener, Bruce Mindich, Roberta Pitchon, Augusto Pichard, Joel Kuperstein, Manuel Estioko, Roy Jurado, Jorge Camunas, and Robert Litwak

Intramyocardial Conduction: A Major Determinant of R-wave Amplitude During Acute Myocardial Ischemia ............................. 161
Daniel David, Masahito Naito, Eric Michelson, Yoshio Watanabe, Ching C. Chen, Joel Morganroth, Mark Shaffenburg, and Tom Blenkco

Two-dimensional Echocardiographic Features of Right Ventricular Infarction .............................. 167
Brian D'Arcy and Navin C. Nanda

Evaluation of Combined Valvular Prolapse Syndrome by Two-dimensional Echocardiography ..................... 174
Satoshi Ogawa, Junichi Hayashi, Hiroko Sasaki, Masato Tani, Makoto Akaishi, Hideo Mitamura, Masao Sano, Tatsuo Hoshino, Shunnosuke Handa, and Yoshiro Nakamura

Current Topics:
The National Heart, Lung, and Blood Institute Overview 1980. The Director's Report to the NHLBI Advisory Council ...................... 217
Robert I. Levy

Coronary Bypass Surgery for Chronic Angina — 1981. A Perspective .............................. 225
Shahbudin H. Rahimtoola

Original Articles:
Assessment of Jeopardized Myocardium in Patients with One-vessel Disease .............................. 242

Blood Flow Reductions in Stenosed Canine Coronary Arteries: Vasospasm or Platelet Aggregation? .................. 248
John D. Folts, Kim Gallagher, and George G. Rowe

Morphologic Evidence for Coronary Artery Spasm in Eclampsia ........................................ 255
Thomas W. Bauer, G. William Moore, and Grover M. Hutchins

Arterial Dilators in Mitral Regurgitation: Effects on Rest and Exercise Hemodynamics and Long-term Clinical Follow-up .......... 181
Barry H. Greenberg, Henry DeMots, Edward Murphy, and Shahbudin H. Rahimtoola

Determinants and Clinical Significance of Jugular Venous Valve Competence .............................. 188
Jeffrey Fisher, Frey Vaghaiwalla, Joshua Tstilik, Howard Levin, Jeffrey Brinker, Myron Weisfeldt, and Frank Yin

Ruptured Atheromatous Plaques in Saphenous Vein Coronary Artery Bypass Grafts: A Mechanism of Acute, Thrombotic, Late Graft Occlusion ........................................ 197
Ann E. Walts, Michael C. Fishbein, Hector Sustaita, and Jack M. Mailloff

Stereoselective Interaction of Sulfapyrazon with Racemic Warfarin and Its Separated Enantiomers in Man .................. 202
Robert A. O'Reilly

Mechanism of Supraventricular Parasystole ............ 208
Shinji Kinoshita, Koji Nakagawa, Noriyoshi Kato, Tetsuo Nishino, and Yoshinori Tanabe

</table>
Effects of Digitalis on Subendocardial and Subepicardial Dysfunction During Acute Ischemia ................................................................. 1315
Vidya S. Banka, Hajime Yamazaki, Jai B. Agarwal, Monty M. Bodenheimer, and Richard H. Nellen

Effects of Inotropic and Chronotropic Stimuli on Acute Myocardial Ischemic Injury. I. Studies with Dobutamine in the Anesthetized Dog ................................................. 1321
Robert E. Rude, Carlos Izquierdo, L. Maximilian Buja, and James T. Willerson

The Effect of Generalized Alpha-receptor Stimulation on Regional Myocardial Blood Flow Distal to a Severe Coronary Artery Stenosis .............................................. 1329
Henry Gewirtz, Albert S. Most, and David O. Williams

Effects of Verapamil and Propranolol on Left Ventricular Systolic Function and Diastolic Filling in Patients with Coronal Artery Disease: Radionuclide Angiographic Studies at Rest and During Exercise ........................................... 1337
Robert O. Bonow, Martin B. Leon, Douglas R. Rosing, Kenneth M. Kent, Lewis C. Lipson, Stephen L. Bacharach, Michael V. Green, and Stephen E. Epstein

Propranolol in Angina Pectoris. Comparison of Long-acting and Standard-formulation Propranolol ................................................................. 1351
John O. Parker, Ann Porter, and John D. Parker

Comparison of Acebutolol and Propranolol for Treatment of Chronic Ventricular Arrhythmia: A Placebo-controlled, Double-blind, Randomized Crossover Study ................................................. 1356
Steven N. Singh, Robert DiBianco, Michael E. Davidov, John S. Gottdien, Wanda L. Johnson, Atul R. Laddu, and Ross D. Fletcher, with the technical assistance of James L. Cockrell and Rebecca B. Costello

Hemodynamics, Biochemical and Reflexive Changes Produced by Atenolol in Hypertension ...................................................................................... 1365
Gerald R. Dreslinski, Franz H. Messerli, Francis G. Dunn, Daniel H. Suarez, Efrain Reisin, and Edward D. Frohlich

The Effects of Oral Hydralazine on Right Ventricular End-diastolic Pressure in Patients with Right Ventricular Failure ...................................................... 1369
Lewis J. Rubin, Franklin Handel, and Robert H. Peter

Hemodynamic and Radionuclide Effects of Acute Captopril Therapy for Heart Failure: Changes in Left and Right Ventricular Volumes and Function at Rest and During Exercise ...................................................... 1374
Barry Massie, Barry L. Kramer, Nina Topic, and Steven G. Henderson

Drug-induced Conditioning in Congestive Heart Failure ...................................................... 1382
Carl V. Leier, Patricia Huss, Richard P. Lewis, and Donald V. Unverferth

Sudden Death in Hypertrophic Cardiomyopathy: A Profile of 78 Patients ................................................................. 1388
Barry J. Maron, William C. Roberts, and Stephen E. Epstein

Left Ventricular Relaxation in Patients with Left Ventricular Hypertrophy Secondary to Aortic Valve Disease ................................................................. 1395
Peter Eichhorn, Joerg Grimm, Rosemarie Koch, Otto Hess, John Carroll, and Hans P. Krayenbuehl

The Relationship Between the Strength of the Human Heart Beat and the Interval Between Beats ................................................................. 1404

Comparison of Cardiovascular Response to Combined Static-Dynamic Effort, Postprandial Dynamic Effort and Dynamic Effort Alone in Patients with Chronic Ischemic Heart Disease ................................................................. 1411
Joseph Hung, James McKillip, William Savin, Sheldon Magder, Robert Kraus, Nancy Houston, Michael Goris, William Haskell, and Robert DeBusk

Treadmill Test Responses to an Early Exercise Program After Myocardial Infarction: A Randomized Study ................................................................. 1420
Erika S. Sivarajan, Robert A. Bruce, Bronwen D. Lindskog, Mary Jane Almes, Laurent Belanger, and Bert Green

Mechanisms of Bradyarrhythmia-induced Ventricular Arrhythmias in Myocardial Ischemia and Infarction ................................................................. 1429
B.J. Scherlag, Glenn Kabell, Lara Harrison, and Ralph Lazara

Hypothermic Coronary Venous Phased Retroperfusion: A Closed-chest Treatment of Acute Regional Myocardial Ischemia ...................................................... 1435
Samuel Meersbaum, Roberto V. Haendchen, Elliot Corday, Mosyey Povzhitkov, Michael C. Fishbein, Jacob Y-Rit, Tsu-Wang Land, Takahisa Uchiyama, Noboru Aosaki, and Jeffrey Broffman

Expansion of Acute Myocardial Infarction: An Experimental Study ...................................................... 1446
Judith S. Hochman and Bernadine Healy Bulkeley

Prognostic Implications of Diagnostic Q Waves After Myocardial Infarction ...................................................... 1451
Alan G. Wasserman, George B. Bren, Allan M. Ross, David W. Richardson, Richard G. Hutchinson, and Jorge C. Rios, with the technical assistance of Daniel Bogaty

The Electrocardiogram in Epidemiologic Investigations. A New Classification System ...................................................... 1456
Hubert V. Pipberger, Ernst Simonson, Emigdio A. Lopez, Jr., Matthew A. Araoye, and Hanna A. Pipberger

Diagnostic Accuracy of Exercise ECG Lead Systems in Clinical Subsets of Women ...................................................... 1465
Pere Guiteras Val, Bernard R. Chaitman, David D. Waters, Martial G. Bourassa, Jean-Marie Scholl, Ronald J. Ferguson, and Pierre Wagniart

Enhanced Atrioventricular Conduction in Patients Without Preexcitation Syndrome: Relation to Heart Rate in Paroxysmal Reciprocating Tachycardia ...................................................... 1474
David G. Benditt, Michael L. Epstein, Carl E. Arentzen, Jolene M. Kriett, and George J. Klein

(Continued)
Serial Electrophysiologic Studies in Patients with Chronic Bundle Branch Block ........................................ 1480
Robert W. Peters, Melvin M. Scheinman,
Ramesh Dhingra, Kenneth Rosen,
John McAulnty, Shahbudin H. Rahimtoola,
and Gunnar Modin

Mechanism of Abnormal Interventricular Septal
Motion During Delayed Left Ventricular
Activation .................................................... 1486
William C. Little, Russell C. Reeves,
Joaquin Arciniegas, Richard E. Katholi,
and Edwin W. Rogers

Diastolic Collapse of the Right Ventricle with
Cardiac Tamponade: An Echocardiographic Study ................................................................. 1491
William F. Armstrong, Bruce F. Schilt,
Debra J. Helper, James C. Dillon, and
Harvey Feigenbaum

Identification of Transient and Persistent Seg-
mental Wall Motion Abnormalities in Pa-
tients with Unstable Angina by Two-dimen-
sional Echocardiography .................................. 1497
J.V. Nixon, Charles N. Brown, and
Thomas C. Smitherman

Slow Late Myocardial Clearance of Thallium: A
Characteristic Phenomenon in Coronary
Artery Disease .............................................. 1504
Joel Sklar, Dennis Kirch, Timothy Johnson,
Bruce Hasegawa, Stephen Peck, and Peter Steele

Noninvasive Identification of Initial Site of Ab-
normal Ventricular Activation by Least-
square Phase Analysis of Radionuclide
Cineangiograms ............................................. 1511
David A. Turner, Patrick L. Von Behren,
Neal T. Ruggie, Robert G. Hauser,
Pablo Denes, Amjad Ali, Joseph V. Messer,
Ernest W. Fordham, and Mark W. Groch

Should a Fixed External Reference System Be
Used to Analyze Left Ventricular Wall
Motion? ...................................................... 1518
Paul D. Clayton, Gary M. Jeppson,
and Steven C. Klausner

Rapid Renal Clearance of Immunoreactive Canine
Plasma Myoglobin ........................................... 1522
Francis J. Klocke, Donald P. Copley,
Justine A. Krawczyk, and Morris Reichlin

Key References:
Cardiovascular Trauma. Part I ................................ 1529
compiled by Melvin D. Chetlin

Letters to the Editor ........................................ 1533
