Circulation publishes original contributions of scientific excellence concerned with clinical and laboratory research relevant to cardiovascular disease. Clinical research, including clinical studies and trials, can be from many disciplines including cardiovascular medicine and surgery, epidemiology, radiology, and pathology. The journal also accepts for publication meritorious basic research contributions from fields such as physiology and molecular biology that contribute to an understanding of clinical cardiovascular medicine.

SPECIAL REPORT

Guidelines for Percutaneous Transluminal Coronary Angioplasty: A Report of the American College of Cardiology/American Heart Association Task Force on Assessment of Diagnostic and Therapeutic Cardiovascular Procedures (Subcommittee on Percutaneous Transluminal Coronary Angioplasty)

Thomas J. Ryan, MD, FACC, Chairman

NEWS FROM THE AMERICAN HEART ASSOCIATION ........................................... A19
INDEX TO ADVERTISERS ................................................................. A88

ERRATA

In the above article, Panels A and B of Figure 1 were transposed.

Three errors appeared in the text of the above article. On page 1334, column 1, paragraph 2, line 7, “two-dimensional electrocardiography/Doppler” should have read “two-dimensional echocardiography/Doppler.” On page 1335, column 1, line 3, the beginning of the sentence should have read “valvular and subvalvular stenoses were . . .” instead of “valvular and supravalvular” as printed. Finally, the column headings to Table 2 were incorrect: “Hospital discharge” should have appeared over the first column of data.
Circulation publishes original contributions of scientific excellence concerned with clinical and laboratory research relevant to cardiovascular disease. Clinical research, including clinical studies and trials, can be from many disciplines including cardiovascular medicine and surgery, epidemiology, radiology, and pathology. The journal also accepts for publication meritorious basic research contributions from fields such as physiology and molecular biology that contribute to an understanding of clinical cardiovascular medicine.

ANNOTATED TABLE OF CONTENTS .................................................. A19
NEWS FROM THE AMERICAN HEART ASSOCIATION .................................................. A83
INDEX TO ADVERTISERS .................................................. A142

Circulation (ISSN 0009-7322) is issued monthly in two indexed volumes per year by the American Heart Association, Inc., 7320 Greenville Avenue, Dallas, TX 75231. Annual subscriptions accepted at any time. Subscription rates for Japan and Europe are available through respective exclusive agents. All orders for Japan must go through Nankodo Co., Ltd., 42-6 Hongo 3-chome, Bunkyo-Ku, Tokyo 113, Japan. All orders for Europe must go through Harcourt Brace Jovanovich Ltd., Footscray High Street, Sidcup, Kent DA14 5HP, England. Individuals may subscribe to Circulation for their personal use at the following rates: $72 in the United States; $85 outside the United States, Japan, or Europe. Interns, residents, and medical students (United States, Canada or Mexico only) are eligible for a reduced rate if payment is accompanied by a letter from the department chairman verifying post held and completion date. Special reduced rates are $36.00 in the United States, $42.50 in Canada and Mexico. Subscriptions for libraries, reading rooms, and other multiple-use institutions are available at special rates; contact the AHA for details. Remittances for subscriptions outside Japan and Europe must be made by check, draft, post office or express money order in U.S. dollars payable to the American Heart Association with Circulation on the face of the check. Issues will be mailed after payment is received. Prices are subject to change without notice. Air mail and single copy rates are available upon request. Second class postage paid at Dallas, Texas, and additional mailing offices. POSTMASTER: Send address changes to Circulation, American Heart Association, 7320 Greenville Avenue, Dallas, Texas 75231. The Fulfillment Manager should be advised of change of address 30 days before date of issue with both the subscriber's old and new addresses given.

Serum Immunoglobulin E After Myocardial Infarction

Michael H. Criqui, MD, MPH ........................................... A13

Erratum

Value and Limitations of Doppler Echocardiography in the Quantification of Stenotic Mitral Valve Area: Comparison of the Pressure Half-time and the Continuity Equation Methods

Satoshi Nakatani, Tohru Masuyama, Kazuhisa Kodama, Akira Kitabatake, Kenshi Fujii, and Takenobu Kamada (Circulation 1988;77:78–85)

In the abstract, the legend to Figure 1, and the second paragraph on page 80, the measurement of pressure half-time by Hatle’s method is described as the time required for the peak velocity to fall to “one-half the square root of its peak velocity” rather than “peak velocity divided by √2,” which is the method used by the authors.

INDEX TO ADVERTISERS
Circulation (ISSN 0009-7322) Published monthly at the Scientific Publishing Office, American Heart Association, 7320 Greenville Avenue, Dallas, TX 75231.

Subscription Rates
Annual subscriptions accepted at any time. Subscription rates for Japan and Europe are available through respective exclusive agents. All orders for Japan must be sent to Nankodo Co., Ltd., 42-6 Hongo 3-chome, Bunkyo-ku, Tokyo 113, Japan. All orders for Europe must be sent to Harcourt Brace Jovanovich, Ltd., Foots Cray High Street, Sidcup, Kent DA14 5HP, England.

Individuals may subscribe to Circulation for their personal use at the following rates: $76.00 in the United States; $100.00 outside the United States, Japan, or Europe. Interns, residents, and medical students (United States, Canada, or Mexico only) are eligible for a reduced rate if payment is accompanied by a letter from the department chairman verifying post held and completion date. Special reduced rates are $36 in the United States, $42.50 in Canada and Mexico. Subscriptions for libraries, reading rooms, and other multiple-use institutions are available at special rates; contact the AHA for details. Remittances for subscriptions outside Japan and Europe must be made by check, draft, post office or express money order in U.S. dollars payable to the American Heart Association with Circulation on the face of the check. Issues will be mailed after payment is received. Prices are subject to change without notice. Single copy rates are available on request.

Editorial Correspondence
John Ross, Jr., M.D., Circulation Editor, 2223 Avenida de la Playa, Suite 203, La Jolla, CA 92037.

Business Correspondence
Publishing Director, American Heart Association, 7320 Greenville Avenue, Dallas, TX 75231.

Second class postage paid at Dallas, Texas, and additional mailing offices. POST-MASTER: Send address changes to Circulation, American Heart Association, 7320 Greenville Avenue, Dallas, TX 75231.

The Customer Service Manager should be advised of change of address 30 days before date of issue. Provide both old and new addresses.

Advertising Correspondence

Advertising copy must be approved by a special committee of the American Heart Association. Advertising forms close 45 days before the first day of publication month. Advertising rates and page sizes are available on request.

Instructions to Authors
Information about manuscripts for Circulation, including format, submission, review, and editing, appear in each issue (see Table of Contents). The author bears the cost of color in illustrations, as well as the cost of any reprints.
